

Important Notice

The Board of Directors, the Supervisory Committee and the Directors, Supervisors and senior management of the Company warrant that there are no false records, misleading statements or material omission in this interim report (this "Report"), and jointly and severally accept full responsibility for the truthfulness, accuracy and completeness of the information contained in this Report.

This Report has been reviewed and approved at the ninth meeting of the eighth session of the Board of the Company in 2016. Mr. LIU Chong, non-executive director, was unable to attend the Meeting due to work reasons, and has authorised Mr. WANG Yuhang, Vice Chairman, to vote on his behalf.

The financial report of the Group has been prepared with the China Accounting Standards for Business Enterprises ("CASBE"). The interim financial statements and notes (the "Interim Financial Report") of the Group as of 30 June 2016 prepared in accordance with CASBE have not been audited.

Neither any controlling shareholder (including its subsidiaries) nor any substantial shareholder (including its subsidiaries) of the Company has utilised the non-operating funds of the Company.

The Company proposes not to distribute any cash dividend, issue bonus shares or convert shares from reserves into share capital for the six months ended 30 June 2016 (the same period of 2015: Nil).

Mr. WANG Hong, person-in-charge of the Company and Chairman of the Board, Mr. MAI Boliang, CEO and President, and Mr. JIN Jianlong, general manager of the financial department, person-in-charge of accounting affairs and head of the accounting department (the financial controller), hereby warrant the truthfulness, accuracy and completeness of the Interim Financial Report contained in this Report.

This Report contains certain forward-looking statements made on the basis of subjective assumptions and judgements on future policy and economy, which are subject to risks, uncertainties and assumptions. The actual outcome may differ materially from such statements. Investors should be aware that undue reliance or use of such information may lead to risks relating to investment.

This Report has been prepared in both Chinese and English. In the event of any inconsistency between the two versions, the Chinese version shall prevail.

Definitions

For the purpose of this Report, unless the context otherwise requires, the following terms shall have the meanings set out below:

Items	Definitions
"A Share(s)" (or "RMB-denominated Ordinary Share(s)")	ordinary share(s) issued by the Company in the PRC with a nominal value of RMB1.00 each, which are listed on the Shenzhen Stock Exchange and traded in Renminbi;
"A Share(s) Share Option Incentive Scheme"	share option incentive scheme of China International Marine Containers (Group) Co., Ltd. considered and approved at the extraordinary general meeting of the Company on 17 September 2010;
"Articles of Association"	the Articles of Association of China International Marine Containers (Group) Co., Ltd.;
"Board"	the Board of the Company;
"CASBE"	Accounting Standards for Business Enterprises – Basic Standard and 38 Specific Accounting Standards issued by the Ministry of Finance of the People's Republic of China on 15 February 2006, and application guidance and interpretations to CASBE and other related regulations subsequently issued;
"CFSE"	China Fire Safety Enterprise Group Limited, a company listed on the main board of the Hong Kong Stock Exchange (stock code: 445) and an associated company of the Company;
"CIMC" or "Company"	China International Marine Containers (Group) Co., Ltd. (中國國際海運集裝箱(集團)股份有限公司), a joint stock company incorporated in the PRC with limited liability, the A shares of which are listed on the Shenzhen Stock Exchange and the H Shares of which are listed on the Hong Kong Stock Exchange;
"CIMC Enric"	CIMC Enric Holdings Limited (中集安瑞科控股有限公司), a company incorporated in the Cayman Islands with limited liability on 28 September 2004 and listed on the main board of the Hong Kong Stock Exchange (Hong Kong stock code: 3899) on 20 July 2006 and a non-wholly-owned subsidiary of the Company;
"CIMC Finance Company"	CIMC Finance Co., Ltd., a company incorporated in the PRC with limited liability on 9 February 2010 and a wholly-owned subsidiary of the Company;
"CIMC Financial Leasing Company"	CIMC Financial Leasing Co., Ltd., a company incorporated in the PRC with limited liability on 30 July 2007 and a wholly-owned subsidiary of the Company;

Definitions

“CIMC Hong Kong”	China International Marine Containers (Hong Kong) Limited (中國國際海運集裝箱香港有限公司), a company incorporated in Hong Kong with limited liability on 30 July 1992 and a wholly-owned subsidiary of the Company;
“CIMC Offshore Engineering”	Yantai CIMC Raffles Offshore Ltd. (煙台中集來福士海洋工程有限公司), a company incorporated in the PRC with limited liability on 25 October 1996 and a non-wholly-owned subsidiary of the Company;
“CIMC Raffles”	CIMC Raffles Offshore (Singapore) Limited, a company incorporated in Singapore with limited liability on 7 March 1994 and a wholly owned subsidiary of the Company;
“CIMC Tianda”	Shenzhen CIMC-Tianda Airport Support Co., Ltd. (深圳中集天達空港設備有限公司), a company incorporated in the PRC with limited liability on 18 July 1992 and a non-wholly-owned subsidiary of the Company;
“CIMC Vehicle”	CIMC Vehicle (Group) Co., Ltd. (中集車輛(集團)有限公司), a company incorporated in the PRC with limited liability on 29 August 1996 and a non-wholly-owned subsidiary of the Company;

“Ziegler”	Albert Ziegler GmbH, a company incorporated in Germany with limited liability and a non-wholly-owned subsidiary of the Company.

Glossar

This glossary contains certain definitions of technical terms used in this Report in connection with the Group. Some of these definitions may not correspond to standard industry definitions or usage.

Items	Definitions
CNG	Compressed Natural Gas;
GSE	Ground Support Equipment, refers to airport equipment used to ensure flight safety. To meet the requirements for aircraft maintenance and flights, airports are equipped with a variety of modern ground support equipment, including but not limited to mechanical, electric, hydraulic and special gas equipment;
Jack-up Drilling Platform	A Jack-up Drilling Platform is a mobile oil rig commonly used for shallow water operation. Most jack-up rigs operate in water depths ranging from 250 to 400 feet. This oil drilling equipment is generally used for mounting machinery, power supply, equipment and accommodation facilities for drilling and certain liftable spud legs on a platform floating on the water;
LNG	Liquefied Natural Gas;
LPG	Liquefied Petroleum Gas;
Modular Building	the building manufactured in a factory environment and transported to a prepared project site to be installed;
ONE Mode	Optimization Never Ending, the lean management system of CIMC;
QHSE	A management system that guides and controls an organisation in respect of Quality, Health, Safety and Environment;
Semi-submersible Drilling Platform	A Semi-submersible Drilling Platform is a mobile oil rig, the upper part of the hull structure is the working deck and the lower part comprises two lower hulls, with the parts connected by support columns. When in operation, the lower hulls are submerged into the water. A semi-submersible platform is generally used in deep seas with water depths ranging from 600-3,600m. The platform typically uses a dynamic positioning system for positioning;
TEU	Twenty-foot equivalent unit, a standard unit of measurement of the volume of a container with a length of 20 feet, height of 8 feet and 6 inches and width of 8 feet; and
VOCs	Volatile Organic Compounds

III. NON-RECURRING PROFIT OR LOSS ITEMS AND AMOUNTS

Unit: RMB thousand

	Amount (January 1, 2016) (in thousands)
Gain/(loss) from disposal of non-current assets	(3,332)
Government grants recognised in profit or loss for the current period	135,375
Gains or losses from changes in fair value arising from holding of financial assets held for trading and financial liabilities held for trading, and investment gains arising from disposal of financial assets held for trading, financial liabilities held for trading and available for-sale financial assets, except for the effective hedging activities relating to the Group's ordinary activities	12,264
Net gains from disposal of investments	23,712
Other non-operating income and expenses other than the above items	21,101
Effect of income tax	(30,604)
Effect of minority interests (after tax)	(34,350)
Total	124,166

Note: Aforesaid non-recurring profit or loss (other than effect of minority interests (after tax)) was presented at amount before taxation.

Reasons and explanations on the Company's non-recurring profit or loss items as defined under the Explanatory Announcement No.1 on Information Disclosure by Companies Offering Securities to the Public – Non-Recurring Profit or Loss (the "Explanatory Announcement No.1") and the recurring profit or loss items which are listed as non-recurring profit or loss items under the requirements of the Explanatory Announcement No.1

Applicable Not applicable

Chapter III Report of the Board

I. OVERVIEW

In the first half of 2016, the global economic recovery still remained weak, the demand from developed countries was sluggish, the growth of emerging economies was slow, and the international trade continued suffering from a downturn. The international financial environment was complex and volatile, and Brexit increased the fluctuation of the global financial environment. China's economic growth slowed down, exports continued shrinking, RMB exchange rate fluctuation intensified, and economic operational risk increased.

Although our Group took various measures and made arrangements actively for coping with the aforesaid dilemma, our Group still recorded a significant decrease in the operation results due to the impact of continued unfavourable market situation during the Reporting Period. Meanwhile, due to the significant provision for the purchase of equity interests in Nantong Sinopacific Offshore & Engineering Co., Ltd. ("SOE") by CIMC Enric, a non-wholly-owned subsidiary of the Group during the Reporting Period, the Group recorded net loss attributable to the shareholders of the parent company. During the Reporting Period, the Group's revenue amounted to RMB23,542.843 million (same period in 2015: RMB32,637.289 million), representing a year-on-year decrease of 27.87%, while its net profit attributable to the shareholders and other equity holders of the parent company was at a loss of RMB378.034 million (same period in 2015: gaining a profit of RMB1,518.195 million).

II. REVIEW OF PRINCIPAL BUSINESSES DURING THE REPORTING PERIOD

The Group is principally engaged in the manufacture of modern transportation equipment, energy, chemical and liquid food equipment, offshore engineering equipment and airport facilities, as well as the provision of relevant services, including the design, manufacture and service of international standard dry containers, reefer containers, regional special containers, tank containers, wooden container floorboards, road tank trucks, natural gas equipment and static tanks, road transportation vehicles, heavy trucks, Jack-up Drilling Platforms, Semi-submersible Drilling Platforms, special vessels and airport facilities. In addition, the Group is also engaged in logistics service, real estate development, finance and other businesses. Currently, the Group ranks No.1 in the world in terms of output and sales of standard dry containers and tank containers, and the Group is China's largest manufacturer of semi-trailers and also one of the leading high-end offshore engineering equipment enterprises in China.

During the Reporting Period, the products and businesses contributing 10% or more to the

Chapter III Report of the Board

Container Manufacturing Business

The Group's container business mainly deals with standard dry containers, reefer containers, special reefers and Modular Building. The Group has the capacity to produce a full series of container products with independent intellectual property rights. Special reefers and Modular Building business include 53-foot inland North American containers, European wide containers, bulk containers, special reefer containers, foldable containers and Modular Building products.

In the first half of 2016, due to weak global economy and continued slowdown in China's exports, the growth of shipping trade was weak, and the operation results of container shipping companies continued deteriorating, with the prospect of the market appearing to be relatively gloomy. Meanwhile, some large-sized container shipping companies and container leasing companies, which carried out merger or acquisition in succession in the previous year, were in the period of integration. All these factors resulted in customers' generally postponing capital investment with their purchasing demand for newly built containers weakened. The lowering of demand and the relative overcapacity made the competition in container manufacture industry more intensified, consequently, the price of containers was at a low level as a whole. However, the number of orders of the same period in the previous year was relatively at a high level, and the year-on-year base was high, as a result, the Group recorded a sharp year-on-year decrease in the sales volume and the revenue of containers during the Reporting Period.

During the Reporting Period, the accumulated sales volume of ordinary dry containers of the Group reached 238,300 TEUs (same period in 2015: 736,100 TEUs), representing a year-on-year decrease of 67.63%; the accumulated sales volume of reefer containers reached 22,300 TEUs (same period in 2015: 86,900 TEUs), representing a year-on-year decrease of 74.34%. The container business recorded a revenue of RMB4,898.618 million (same period in 2015: RMB12,478.632 million), representing a year-on-year decrease of 60.74%; and the net loss was RMB139.632 million (same period in 2015: gaining a profit of RMB710.009 million), representing a year-on-year loss.

In the first half of this year, faced with the weak demand for container business and low capacity utilisation rate, the Group actively shrunk capacity by taking measures such as combining production bases to help improve the capacity utilisation rate and the profit margin. The relocation project of containers in Fenggang of Dongguan City was still in an orderly way, and it is expected that the production line for the Phase I of this project would be completed and put into operation in the first half of the next year; the relocation of the Qingdao cold chain industry park project has already been completed and put into operation, which may satisfy the steadily growing market demand for special reefers.

Chapter III Report of the Board

Road Transportation Vehicle Business

In respect of the road transportation vehicle business, the Group has established different product lines for special vehicles consisting of 10 series and more than 1,000 models, including container semi-trailers, flatbed/staked-side semitrailers, low-flatbed semi-trailers, vehicle loaded semi-trailers, stake trucks, van trucks, tank trucks, dump trucks, sanitation trucks and special vehicles. These products cover major domestic and international markets.

From the end of 2014, under the pressure of national energy structure adjustment and environmental protection, the growth rate of domestic manufacturing investment has continued to decrease, the market demand for special vehicles has fallen, and the vacancy rate of engineering special vehicles has remained high. In the first half of 2016, benefiting from national policy of stabilizing growth, domestic fixed-assets investment such as real estate and infrastructure construction recovered, and the domestic market sales volume of special vehicles was driven to an increase as compared with the same period of previous year. In the overseas market, although the shipping performance in the North American market remained strong, the cyclical demand for semi-trailers peaked; the economy of emerging countries remained uneven, and the growth of demand in each region significantly fell due to low price of bulk goods, devaluation of currencies and low oil price.

During the Reporting Period, the Group's road transportation vehicle business achieved sales of 58,231 units (same period in 2015: 59,491 units), representing a slight year-on-year decrease of 2.12%. It recorded revenue of RMB7,013.354 million (same period in 2015: RMB6,682.115 million, excluding the heavy truck business), representing a year-on-year increase of 4.96%, and achieved net profit of RMB361.893 million (same period in 2015: RMB318.726 million, excluding the heavy truck business), representing a year-on-year increase of 13.54%. The increase in revenue and net profit was mainly attributable to the increase in the gross profit margin as compared with the same period of previous year driven by the business growth in the North American and European market.

During the Reporting Period, the Group's road transportation vehicle business continued promoting the global operation management steadily, strived to enhance the operational efficiency of assets of each business unit and the corporate profitability, and focused on the investment and development of the incremental business and the innovation business of each business unit to realize the growth with quality.

In the PRC market, in the first half of this year, the Group's road transportation vehicle business fully stimulated the enterprise vitality, grasped the hotspots and opportunities in market segments in time and enlarged marketing strength and scope. The Group has completed more than 50% of the annual target in terms of revenue and profit of domestic business. In the overseas market, except that the revenue and profit declined as compared to the same period of previous year in emerging markets affected by the global economy, the revenue and profit of other overseas businesses increased. In the North American market, the Group actively explored incremental space of business; in the European market, the Group fully played the role of global operation system of vehicles, finished the acquisition of 100% equity of Retlan Manufacturing Ltd. which was a leader in Britain trailer market, continued deploying to enhance the growth momentum in the future.

Energy, Chemical and Liquid Food Equipment Business

The Group's subsidiary CIMC Enric is principally engaged in design, development, manufacturing, engineering and sales of various transportation, storage and processing equipment widely used in three sectors, namely energy, chemical and liquid food, as well as provision of relevant technical and maintenance services. Its energy and chemical equipment products and services are supplied throughout China and are exported to Southeast Asia, Europe and North and South Americas; and from its production base in Europe, its liquid food equipment products and services are offered worldwide.

Chapter III Report of the Board

In the first half of 2016, the continuous fall of the international oil price narrowed the price advantage of natural gas as compared with that of oil, as a result, the progress of “oil to gas” projects in China slowed down, and the attractiveness of natural gas as an alternative fuel became less appealing. In addition, the sales volume of natural gas equipment of CIMC Enric, especially the sales volume of CNG trailers, LNG vehicle-carrying bottles and LNG gas stations experienced a decline to different extents as compared with the same period of the previous year; although the revenue of special tank containers of chemical equipment increased, the demand for standard tank containers was low, the revenue of chemical equipment recorded a decrease; the orders of liquid food equipment increased, which drove the slight increase of revenue. In addition, during the Reporting Period, as some of the conditions precedent were not fulfilled or waived, CIMC Enric terminated its acquisition of the entire equity interests of SOE, and from a prudent perspective, made provisions of RMB1.21 billion in aggregate for the first installments of consideration, consideration prepayment, loans and guarantee that had already been paid based on the negotiation between SOE and the seller and knowledge of the financial position of SOE and the seller. Accordingly, during the Reporting Period, CIMC Enric experienced a significant loss which also incurred in the Group’s energy, chemical and liquid food equipment business.

During the Reporting Period, the energy, chemical and liquid food equipment business of the Group recorded revenue of RMB4,338.109 million (same period in 2015: RMB4,774.432 million), representing a year-on-year decrease of 9.14%. The net loss was RMB1,021.577 million (same period in 2015: gaining a profit of RMB259.454 million), representing a year-on-year decrease of 493.74%. The revenue from the energy equipment business of CIMC Enric was RMB1,445.660 million (same period in 2015: RMB1,669.285 million), representing a year-on-year decrease of 13.40%; the revenue from the chemical equipment business was RMB1,248.365 million (same period in 2015: RMB1,515.438 million), representing a year-on-year decrease of 17.62%; and the revenue from the liquid food equipment business was RMB1,043.477 million (same period in 2015: RMB978.326 million), representing a year-on-year increase of 6.66%.

In the first half of 2016, business segments of CIMC Enric remain committed to providing quality products and services and continued to strengthen the development of new products and projects to cater for the changing needs of clients. (1) Energy equipment segment carried out the research and development of LNG liquid cargo tank for ships, LNG full containment tank, LNG fuelling station, new series of cryogenic tanks and decontamination system of nuclear power station; some of the new products have already been launched in the market and brought revenue contribution. In the environment of low oil price, the research and development team made efforts in developing various LPG equipments, such as LPG spherical tanks that meet international standard and LPG power generation system. (2) Chemical equipment segment strived to provide clients with new logistic solutions and develop different types of tank containers according to the needs of clients, for example, 40-foot new international LNG tank containers of high-performance, 20-foot internationally applied cryogenic tank containers, cryogenic tank containers catering for long-haul international transportation and lightweight special tank containers catering for European clients. (3) Liquid food equipment focused on developing the workmanship turnkey system of beer factory, exploring new equipment with customers, as well as increasing efficiency and reducing costs; at the same time it continued to strengthen the research and developing power of new technology for beer brewing, realizing diversified development through exploring new businesses.

During the Reporting Period, CIMC Enric has completed the acquisition of 100% equity of Briggs Group Limited (“Briggs”). The operation of Briggs is in United Kingdom and United States; it is principally engaged in the engineering, process engineering and the sales of equipment and process monitoring system in industries including brewing, beverages, distilled food, pharmaceutical, health and beauty, as well as bio-fuel and offers project management and consulting services. The business of Briggs and the existing liquid food equipment business of CIMC Enric complement each other. The acquisition of Briggs enabled CIMC Enric to enter the liquid food industry of non-brewing field, bio-fuel and pharmaceutical industry, expanding the combination of products and services, as well as market area, in order to consolidate its market position.

Chapter III Report of the Board

Offshore Engineering Business

The Group is one of the leading contractors of high-end offshore engineering equipment in China and has been participating in the competition of the international market of offshore engineering business all the time. The Group's offshore engineering business is mainly operated by CIMC Raffles and its subsidiaries. Our main products include Jack-up Drilling Platforms, Semi-submersible Drilling Platforms, and auxiliary vessels for offshore engineering projects.

Continuously affected by the low international oil price, the sharp drop in the global offshore engineering equipment market continued in the first half of 2016. Global mainstream marine petroleum drilling companies postponed the delivery of platforms under construction, and they did not place orders. In 2015, a total of 257 vessels of offshore engineering equipment were completed worldwide, representing a year-on-year decrease over 60%. From January to June in 2016, only a total of 36 vessels of offshore engineering equipment were completed worldwide, which continued to decrease significantly because of the sluggish condition in 2015.

During the Reporting Period, the offshore engineering business of the Group recorded a sales revenue of RMB3,703.689 million (same period in 2015: RMB5,043.275 million), representing a year-on-year decrease of 26.56%. Besides, the Group incurred a net loss of RMB3.988 million (same period in 2015: gaining a profit of RMB18.658 million), which was mainly attributable to a decrease in new orders resulting from a decline in oil price and deferred delivery of orders on hand.

In the "winter of offshore engineering industry", CIMC Raffles strived to overcome difficulties and focused on strategic products, and obtained an order from CNOOC Energy Technology & Services Limited (中海油能源發展股份有限公司) of jack-up drilling platform for HYSY 162 Project during the Reporting Period. Meanwhile, it actively expanded its new businesses and delivered a 5-year special inspection project in connection with 2 semi-submersible drilling platforms during the Reporting Period. CIMC Raffles has 14 orders in hand, with the contract amount approaching USD4 billion.

On 8 June 2016, under the leadership and sponsorship of National Development and Reform Commission, Ministry of Finance and Ministry of Industry and Information Technology, China Advanced Manufacturing Industry Investment Fund was established in Beijing. As a superior enterprise in the area of offshore engineering general assembly construction, the Group signed a cooperation framework agreement with SDIC Investment Management Co., Ltd. (國投創新投資管理有限公司) which is the manager of China Advanced Manufacturing Industry Investment Fund. China Advanced Manufacturing Industry Investment Fund proposed to make equity investment in CIMC Offshore Engineering and they are now in the negotiations in respect of the specific terms of the investment. Subject to the due execution of Investment Agreement, offshore engineering business in our Group will obtain national industry fund's direct support which will help CIMC Offshore Engineering achieve new breakthroughs in the R&D, design and general assembly construction of high-end offshore engineering equipment and the localization of core equipment, which in turn can improve CIMC Offshore Engineering's momentum and ability to implement national offshore strategy and innovative development.

Logistics Service Business

The logistics business of the Group is committed to offering valuable logistics solutions for customers by utilising a series of logistics equipment and technologies. The development idea of the Group's logistics service business is to change logistics with equipment and build a unique business model for CIMC Logistics while giving full play to the core competitive advantages of logistics equipment in its designing, R&D, manufacturing, lease and service; further build and perfect the global logistics network distribution and build an ecosystem for CIMC Logistics by centering on the "Belt and Road"; integrate with the concept of "Internet plus" and innovate in the new business development model of CIMC Logistics; adhere to the principle of "cargo value most (以貨為王)", base on customer demands, and expand full supply chain solutions.

Chapter III Report of the Board

In the first half of 2016, the domestic logistics services industry remained generally stable and its structural differentiation was obvious. The demand for international logistics increased. The logistic demand in traditional industries such as mining and high-consuming energy remained weak and logistic demand in the equipment manufacturing industry increased. The logistics service price remained low; and the performance of logistics enterprises failed to turn better in an obvious manner. Affected by the market environment of bulk commodities, the Group scaled down the supply chain business of logistic services and adjusted the oil and gas business. The revenue generated from the existing businesses decreased due to the decline of shipping price.

During the Reporting Period, the Group's logistics business achieved sales revenue of RMB3,218.617 million (same period in 2015: RMB4,267.810 million), representing a year-on-year decrease of 24.58%, and net profit of RMB68.434 million (same period in 2015: RMB57.474 million), representing a year-on-year increase of 19.07%. The increase in our profit was mainly attributable to the satisfactory profit from Sino-Worlink (Beijing) Investment Co., Ltd. and Sino-Worlink (Hong Kong) International Logistics Co., Ltd. which were acquired in 2015.

In the first half of 2016, the four major business lines of logistic services of the Group focused on developing in the direction of equipment logistics, multimodal transport, cross-border logistics and systemic container services. (1) Equipment logistics business line continued to promote lean production and kanban management to improve the manufacturing process of the factories and increase the level of information; the Group has changed the situation that equipment logistics business mainly relies on export for growth by vigorously expanding the domestic market. (2) Container services business line promoted the improvement

of quality, service, lean and information system and strengthened the management and control on cost and safety; confirmed eight business products including shipping agency, freight agency, container yard, storage and transportation, reefer container service, leasing and sales of second-hand containers, converted containers and railway stations; strengthened the deep strategic cooperation with customers such as purchasers, containers leasing companies and railways; it promotes the implementation of the strategy of "one body with two wing" for rail-water transport, sets up a core enterprise of joint investment, CIMC Kaitong Logistics Development Co., Ltd. (中集凱通物流發展有限公司) along the Yangtze River Basin; it quickens the network distribution of container yards for Southeast Asia territory alongside the "Belt and Road", and makes a research on cold chain logistics market. (3) Industrial logistics business line built professional logistics service by focusing on oil and gas, agriculture, food and other areas, improving internal management and control mechanism while making greater efforts on market development and promoting in-depth integration of logistics services. It vigorously develops and operates transportation platform and declaration platform, thus having achieved higher efficiency and remarkable results. (4) Project logistics business line renewed the organisational structure and development strategy. Its business integrates well with Sino-Worlink. Based on the international railway collaborated transport and multimodal sea-highway-railway transport, it taps the transport potential of railway special vehicles and gradually forms its customized cross-border multimodal transport products services characteristic of CIMC for sea-highway-railway transport of special cargos by scheduled trains in the special cargos transport area, through integration of the transport capacities of specialized ships.

Chapter III Report of the Board

In respect of innovation and expansion of new business models, the Group started multimodal transport business in March this year and established CIMC Multimodal Transport Company (中集多式聯運公司). Multimodal transport is a transport process of mutual link-up and transshipment jointly completed by two or more kinds of vehicles. It relates to various links including dock, depot, storage, financial lease and third party logistics. The Group possesses two advantages in resource and crossing border while starting such business. The Group has a profound resource foundation in container yard business, lease and customs declaration and freight agency, and is able to offer one-stop service in terms of products design, technical certification, production and solutions of logistics transportation. The Group will join such business area by offering innovated logistics equipment and tools to increase the transportation efficiency of railways. The Group is currently building logistics transport corridor in the target area market, developing and securing source for goods while focusing on differentiated competition and railway transport market, namely, the market suitable for a transportation radius of over 1000 kilometers. Currently, the railway transport trains from Xian, Guiyang and Lanzhou to the east have been launched.

Heavy truck business

The Group operates the heavy truck business through C&C Trucks. C&C Trucks positions its products in the mid-end to high-end heavy truck market in the international market and the high-end heavy truck market in the domestic market. It has established the development strategy of “making high-end products, providing quality services, and creating first-class brands”. Its key products include tractors, mixer trucks, dump trucks, granule tank trucks and LNG trucks.

In the first half of 2016, the domestic economy remained a low growth. Except for the real estate industry, fixed investment, highway transport and bulk cargo transport like coal which are closely associated with the heavy-duty truck industry experienced slower growth or negative growth. However, after profound adjustment in 2015, the heavy-duty truck industry witnessed a substantial

rebound driven by strong demand for renewal and industrial restructuring of certain down-stream industries. The overall sales of the domestic heavy truck market in the first half of this year was 338,000 units (same period in 2015: 296,000 units), representing a year-on-year increase of 14%. High-end and high-horsepower tractors maintained high growth rate, with tractors carrying coals and hazardous chemicals increasing by over 50%; dump trucks began to recover growth from April this year after 23 months of consecutive decline; and affected by the narrowed price differences between oil and gas, the sales volume of natural gas heavy trucks continued to decline, but in a more steady way.

During the Reporting Period, the sales of C&C Trucks amounted to 3,003 units, representing 50% of the annual goals, of which high-end and high-horsepower tractors (over 380 horsepower) and hazardous chemical tractors pushed up, recording an increase of 216% as compared to the same period of last year. C&C Trucks realized a year-on-year increase of 57% in sales volume of its products under the unfavorable circumstance that the export amounts of China’s heavy truck generally decreased by more than 30%. During the Reporting Period, the sales revenue from C&C Trucks amounted to RMB860.359 million (same period in 2015: RMB396.090 million), representing a substantial year-on-year increase of 117.21%, and the net loss reached RMB96.523 million (same period in 2015: loss of RMB138.793 million), recording a decrease of loss of 30.46% as compared to the same period of last year.

In the first half of 2016, C&C Trucks strived to change and promoted sales by various marketing mixes including reintegration of resources and organizations, product improvement, channel building, international market expansion, development of end market and smooth service. In addition, by participating in various national marketing activities like Beijing Auto Show and China Truck Racing Championship, and through multi-channel communications of Internet, WeChat and new media, C&C Trucks further strengthens its brand label featured by “high-end, safety and energy-conservation”, and builds images for its brand.

Chapter III Report of the Board

Airport facilities equipment business

The Group's airport facilities business is mainly operated by Pteris (including CIMC Tianda), Ziegler and its subsidiaries. The Group also integrates and achieves synergy with its subsidiary CFSE over the advantages of resources. Its principal businesses include boarding bridges, automated logistics systems and GSE (including shuttle buses and lifting platform vehicles etc.), fire trucks and other rescue vehicles and related services as well as stereo garage business.

In the first half of 2016, global airline business gained prosperous development and the new demands for airport facilities equipment (boarding bridges and GSE) grew steadily. The fire and rescue services, benefited from the pushing forward of China's urbanization, are flourishing. As the fast development of e-commerce and express logistics bring hard-won chances for automatic logistics, stereo garage business can be more steadily developed.

During the Reporting Period, the Group's airport facilities equipment business recorded sales revenue of RMB1,128.444 million (same period in 2015: RMB883.084 million), representing a year-on-year increase of 27.78%. It achieved net profit of RMB10.705 million (same period in 2015: loss of RMB47.245 million), turning losses into profits as compared with the same period of the previous year, mainly because Ziegler achieved profits resulting from its good operation performance.

During the Reporting Period, all principal businesses of the Group's airport facilities equipment achieved its desired development goals and accomplished its business plans. (1) Boarding bridge business: the Group continues to fortify its positions in major airports of China and records steady growth in its revenue and profitability, with the international marketing network further improved and the competitiveness in the global market further enhanced. (2) Fire trucks and rescue vehicles business: Ziegler is in the process of integration and has achieved remarkable results, with the operation procedures optimized and production efficiency greatly improved, hence making short supply

relieved. The Group also started its integration of associated company CFSE and is focusing on future strategic layout to enhance competitiveness.

(3) Automated logistics system of 12.7(12ru(12ru(ru12ru(1

Chapter III Report of the Board

In the first half of this year, the first phase of the first industrial estate project of the Group – Dongguan CIMC Intelligence Valley has been put into use. As of 30 June 2016, the total contracted sales area of the CIMC Intelligence Valley amounted to 36,200 square metres (including the Group’s container headquarters building) and the total amount of contracted sales reached approximately RMB0.417 billion with a total contracted area of 42,200 square metres, which represented an overall occupancy rate of 93% of the first phase completed and laid a good foundation

Chapter III Report of the Board

3. Analysis of Core Competitive Advantages

A development strategy focusing on core businesses to accelerate industrial upgrades

The Group has been focusing on core businesses to step up the industrial upgrades, so as to enhance its industrial competitiveness. While strengthening the advantage of the traditional container industry and focusing on emerging strategic businesses such as natural gas equipment and offshore engineering equipment, the Group set foot in financial, logistics services and other modern services. At present, the Group possessed a diversified business portfolio, with an industrial ecosystem of “manufacture + service + finance” formed. The container business continued to take the lead in the industry, as well as offshore engineering, road transportation vehicles, energy, chemical and liquid food equipment businesses with strong competitive edges in the PRC.

An enterprise framework and management system for continuous improvement and sustainability

The Group has developed a set of effective management models covering business philosophy, governance structure and management mechanism. A standardised and effective corporate governance structure is the institutional safeguards of the

Source of funds for derivatives investments	Self-owned funds
Litigation case (if applicable)	Not applicable
Disclosure date of approval of derivatives investment at a Board meeting (if any)	Nil
Disclosure date of approval of derivatives investment at a shareholders' meeting (if any)	Nil
Risk analysis regarding positions in derivatives during the Reporting Period and explanations of risk control measures (including but not limited to market risk, liquidity risk, credit risk, operation risk and law risk etc.)	As of 30 June 2016, the derivative financial instruments held by the Group were mainly foreign exchange forwards, foreign currency options, interest rate swap and currency swap contracts. The risks of interest rate swap contracts were closely related to the fluctuations of interest rate. The risks carried by foreign exchange forwards and foreign currency options were connected with the market risks relating to exchange rates and the Group's cash flow certainty of foreign currency revenues in the future. The Group's control on the derivative financial instruments was mainly reflected in: making prudent selection and determination on the type and quantity of newly-added derivative financial instruments; as to derivatives transactions, the Group developed rigorous internal approval systems and operational processes, and clarified the approval and authorisation procedures for all levels involved, so as to control the associated risks.
Changes in market prices or product fair values of derivatives invested during the Reporting Period, where specific methods and relevant assumptions and parameters used shall be disclosed in the analysis of fair values of derivatives	From January to June 2016, the Group's profit or loss arising from changes in fair values of the derivative financial instruments was RMB136.160 million. Fair values of the derivative financial instruments of the Group were determined based on market prices of external financial institutions.
Explanations of any significant changes in the Company's accounting policies and specific accounting principles on derivatives between the Reporting Period and the last reporting period	No
Specific opinions of independent Directors on the derivatives investments and risk controls of the Company	In accordance with "Basic Norms for Enterprise Internal Controls", "Application Guidelines for Enterprise Internal Controls", "Enterprise Internal Controls Assessment Guidelines" and other relevant laws and regulations, the Company has established a sound internal control system and put it into effective implementation. Therefore, the risks faced by the Company regarding derivatives investments are controllable.

Chapter III Report of the Board

IV. PROSPECTS AND INITIATIVES

1. Industry Development Trends and Market Outlook in the Second Half of This Year

Looking ahead to the second half of 2016, with a weak recovery of world economy and an increasing differentiation among regions, it is expected that global trading and marine transportation market will remain running at a low level. Such factors as downturn oil prices, Brexit, and expected interest rate raise of the U.S. Federal Reserve will result in greater economic and financial fluctuation risks of the globe. The domestic economy will still face a downward risk.

In respect of the container manufacturing business, based on the latest prediction of CLARKSON (an authoritative analysis institution in the industry), the growth of global container trade will be approximately 3.8% in 2016, which is still in a lower level although improved compared with the same period of previous year. It is expected that the imbalanced status of supply and demand in the shipping industry will remain unchanged, and the decreasing results of container shipping companies and shrinkage or delay of capital investment will cause a continually weak demand for containers. The overall market is in inadequate demand apart from special reefer business.

In respect of the road transportation vehicle business, in the second half of this year, the government will continue to proactively stabilise the growth in the PRC market. It is expected that the year-on-year decrease in the special vehicles market of the PRC would be narrowed in the second half of the year. In the overseas market, the Europe will continue to implement easing policies to realize slow market recovery; slower cycle for the U.S. Federal Reserve to raise interest rate will alleviate the decreasing demand trend in emerging markets; and the continuing economic recovery of the U.S. and continual strong freight index will form a marketing supporting for semi-trailer market's regular slipping from its peak.

In respect of the energy, chemical and liquid food equipment business, continuously affected by the low international oil price, it is expected that China's natural gas industry will continue to suffer pressure for the short term, and the natural gas equipment market will remain in the doldrums. As the chemical industry is affected by the slowdown of the global economic growth, the periodical volatility trend of the chemical equipment is predicted to sustain. The overall market trend of the liquid food equipment will continue to remain stable.

In respect of the offshore engineering business, it is expected that the international oil prices will remain low for a period of time in the future. It is hard to change the downturn condition of the offshore engineering equipment markets this year. Global offshore engineering manufacturing enterprises face with risks including abandonment of ships by customers and project assets impairment. Currently, it is in a periodically difficult period. With the gradual rebounding of oil prices in the future and the integration of offshore engineering industry, the delayed or pending offshore oil and gas projects may get back on the agenda again, and in a medium and long term, the offshore engineering market still has room for development.

In respect of the logistics services business, in the second half of this year, the global trade and shipping markets will remain running at a low level along. It is expected that the logistics industry is hard to see obvious rebound. As the overall level of the logistic industry in China is low, the Chinese government will drive industrial transformation and upgrading with regional integration and development and encourages opening-up externally. Coupled with the concrete implementation of the "The Belt and Road Initiative" strategies, the continuous internationalisation of Renminbi and the extension of bilateral free trade agreements, it will constantly bring forth with enlarged demand for logistics services as well as stricter professionalisation requirements. The development of logistic industry in China is faced with more challenges and opportunities.

Chapter III Report of the Board

In respect of the heavy truck business, in the second half of this year, as the real estate continues to recover and investments in railway increase, it is expected that engineering vehicles market will maintain its rapid development trend; and as hazardous goods tractors and coal transport tractors have increased at a high speed for nearly one year and the supply and demand for highway capacity have basically reached balance, the growth of hazardous goods tractors and coal transport tractors is expected to be slower. However, driven by the replacement demands, it is expected that the overall tractors will continue to keep a steady growth in the second half of this year.

In respect of the airport facilities equipment business, under the new normal, the growth of the domestic infrastructure investment slows down, and hence the demand for new airport equipment will be reduced. However, the replacement demand for the existing equipment will remain helpful to maintain steady business growth. The urbanisation process in China is conducive to the further development of the fire and rescue vehicle business. GSE business is expected to keep growth in China and emerging markets; boarding bridge business is basically stable, and demands for bridge loading facilities increase; demands in emerging markets for fire vehicles and special fire vehicles increase. With the rapid development of domestic e-commerce and automated logistics industry, domestic market demand for various automated logistics equipment will maintain its growth.

In respect of the real estate development business, in the second half of this year, it is expected that domestic policy environment regarding real estate will increasingly differentiate, third-tier and fourth-tier cities will continue to destock. Market turnover increases steadily stimulated by ease policies. However, the stocks of commercial real estate in some second-tier cities are expected to be high yet.

In respect of the financial business, in the second half of this year, such factors as Brexit and interest rate raise of the U.S. Federal Reserve will result in greater world economic and financial risks and bring relatively significant effects to the large financing projects denominated in US dollars. It is expected that the domestic financial leasing industry will keep forging ahead. Due to the intensifying competition of the industry and continual increase of the social financing size, the capital return will be low. With the greater downward pressure of domestic macroeconomy, credit risks of existing businesses under financial leasing are increasing.

2. Major Risk Factors of the Group

In the second half of 2016, the Group will still be exposed to the following macroeconomic and policy adjustment risks against its business environment:

- **Economic periodic fluctuations:** the industries involved in the principal business operations of the Group are dependent on global and domestic economic performance and vary with the periodical changes of the overall economic environment. There are risks that the growth of the Group's container business might slow down due to the declining growth in global trade and China's export. Due to the declining oil prices, the volume of orders received in global market of offshore engineering equipment suffered sharp contraction, putting the Group's offshore engineering equipment business under great pressure. The changes and risks in global economic environment bring higher requirements on the Group's operating and risk controlling capabilities.

Chapter III Report of the Board

- **Risk of industrial policy upgrade and trade protection:** China's economy entered into the "new normal" and the government of China presents the road map for and overall objective of comprehensively deepening reform to push forward the transformation

Chapter III Report of the Board

In respect of the container manufacturing business, in the second half of this year, for container business, the Group will still focus on connotative optimization and consolidation of its leading position in the industry, and pay attention to seizing the opportunity in market fluctuations; continue to adopt measures including active shrink and capacity adjustment to save expense and improve efficiency; at the same time, continue to develop and explore the new business relating to containers, such as Modular Building, cold chain equipment, logistics equipment, environmental protection, new energy, new materials etc.

In respect of the road transportation vehicle business, in the second half of this year, the Group will continue to strive for comprehensively improving the core competencies of global operations. The Group will focus on exploring new business and innovation business while developing existing business so as to realise the continuous quality growth. In domestic market, the Group will seek for more sources of revenue by developing new business. In North American market, the Group will capture market opportunities to expand its production capacity properly, extend the geographical coverage of its products and increase its product types and achieve sustainable growth. In European market, the Group will continue to seek for future growth drivers. In emerging markets, the Group will develop key markets and ensure the steady development of mature regions.

In respect of the energy , chemical and liquid food equipment business, in the second half of this year, in general, the costs will be reduced through internal optimization, and the integration of newly merged enterprises will be strengthened. The energy equipment segment will continuously reduce production costs, improve level of innovation, actively explore overseas markets opportunity, enhance the ability of delivering of small-and-medium sized LNG ships, LEG ships and LPG ships, and continue to develop business opportunities for small sized LNG liquefying systems and equipments as well as EPC services; the chemical equipment segment will continue to take the lead in manufacturing tank containers industry, and intensify the development of special and high-end tank containers (such as LNG tank containers); liquid food equipment segment will move forward towards the goal of possession of vertically integrated EPC contracting capability and horizontally diversified businesses to develop Central American markets and emerging markets.

In respect of the offshore engineering business, in the second half of this year, the Group will shrink capacity according to the market situation and strive to reduce 30% of the cost and increase 30% of the efficiency, focusing on creating advantages in cost and delivery time. Meanwhile, through moderately related multivariate exploration and expansion, the Group will substantially enter into the new business which is able to stabilize oil price fluctuations, such as offshore power equipment, seawater desalination equipment and other offshore engineering equipments in marine economic realm (excluding offshore gas exploitation) based on its existing capabilities.

Chapter III Report of the Board

In respect of the logistics services business, in the second half of this year, the Group will follow closely the national strategies to continue to improve the network distribution at home and abroad; seize favourable period of state's policies to actively develop multimodal transport business; change and improve the logistics by equipment technology and gradually establish the leading advantages of "Internet + technological innovation"; train a compound team with skills of "logistics + vessel + equipment + management" so as to establish core competitiveness for "equipment+service".

In respect of the heavy truck business, in the second half of this year, the Group will implement the actions of annual sales volume increasing, accounts receivable clearing and inventory reducing; reduce the cost of finished vehicle and shorten the delivery cycle of products; speed up the development progress for national V Standard products, high-horsepower tractors and special chassis, comb the vehicle models with major sales and adjust the product mix; promote financial business to serve sales, strengthen the construction of distribution channels and promote marketing model innovation and further expand the overseas market, so as to achieve annual sales target.

In respect of the airport facilities equipment business, in the second half of this year, the Group will continue to improve stereo garage business, explore and launch new business models such as BOT (Build Operate Transfer) and PPP (Public Private Partnership). The Group will integrate and achieve synergy over original business of Pteris; proactively accelerate the integration of CFSE, and incorporate the CFSE into plate management system of the Group; deepen the mutual coordination with Ziegler, deepen the market resource sharing and cooperation with Pteris in the field of airport and logistics.

In respect of the real estate development business, in the second half of this year, the Group will strengthen the contract signing and sales of Zhigu Project and Zihui Garden Project of Songshan Lake in Dongguan and continue to promote the implementation of solutions of Qianhai Project, Shekou Prince Bay Project, Shanghai Baoshan Project and other projects and keep close communication with government authorities, striving to implement the agreements on relevant projects within this year.

In respect of the financial business, in the second half of this year, CIMC Finance Company will focus on establishing timely and efficient capability in financial services, provide customized financial products through combining with actual operating conditions of the Group's member enterprises; strengthen risk management and control. CIMC Financial Leasing Company will continue to deepen the coordination of industry and finance, step up efforts on promotion and marketing, vigorously promote sustained growth of the fundamental businesses such as vehicles and energy and chemical; continue to maintain steady and prudent risk management and control policies, optimize the asset structures to improve the asset quality.

Chapter IV Management Discussion and Analysis Prepared in Accordance with the Hong Kong Securities Rules

The following contents are the financial resource reviews prepared in accordance with the relevant provisions of the Hong Kong Listing Rules. The following discussion and analysis shall be read together with other chapters and the unaudited interim financial statements and notes thereto prepared in accordance with CASBE set out in this Report.

CONSOLIDATED OPERATING RESULTS

During the Reporting Period, the Group recorded revenue of RMB23,542.843 million (same period in 2015: RMB32,637.289 million), representing a year-on-year decrease of 27.87%, and profit attributable to shareholders and other equity holders of the listed company recorded a loss of RMB378.034 million (same period in 2015: gaining a profit of RMB1,518.195 million). For details, please refer to relevant information set out in the chapters headed "Chapter II Summary of Accounting Data and Financial Indicators" and "II. Review of Principal Businesses during the Reporting Period" under "Chapter III Report of the Board" in this Report.

SEGMENT INFORMATION

For details of the segment information of the Group during the Reporting Period, please refer to note XIII of "Chapter VIII Interim Financial Report (Unaudited)" in this Report.

GROSS PROFIT MARGIN AND PROFITABILITY

During the Reporting Period, the gross profit margin of the Group was 18.76% (same period in 2015: 15.68%), representing a year-on-year increase of 3.08%. Among the principal businesses, the gross profit margin of containers business and heavy truck business decreased slightly as compared with the same period of the previous year, while the gross profit margin of other business

Chapter IV Management Discussion and Analysis Prepared in Accordance with the Hong Kong Securities Rules

LIQUIDITY AND FINANCIAL RESOURCES

The Group's cash at bank and on hand primarily consist of cash and bank deposits. As at 30 June 2016, the Group's cash at bank and on hand amounted to RMB5,041.751 million (31 December 2015: RMB4,487.166 million), representing an increase of 12.36% as compared with the end of the previous year. The Group's funds mainly derive from the funds generated from operation and bank loans. The Group has always adopted prudent financial management policies and maintained sufficient and appropriate cash on hand to repay the bank loans falling due and ensure the business development.

During the Reporting Period, the Group recorded net cash flows from operating activities of RMB933.732 million (same period in 2015: RMB(625.453) million), net cash flows from investing activities of RMB(5,376.277) million (same period in 2015: RMB(4,915.427) million) and net cash flows from financing activities of RMB5,570.910 million (same period in 2015: RMB6,180.113 million). At the end of the Reporting Period, the balance of cash and cash equivalents held by the Group amounted to RMB4,310.559 million.

BANK LOANS AND OTHER BORROWINGS

As at 30 June 2016, the Group's short-term borrowings, long-term borrowings, debentures payable and other current liabilities (issuance of commercial papers) in aggregate amounted to RMB51,906.456 million (31 December 2015: RMB46,241.746 million). Details are set out in notes IV. 24, IV. 35, IV. 36, and IV. 37 of "Chapter VIII Interim Financial Report (Unaudited)" in this Report.

Unit: RMB thousand

	As at 30 June 2016 (audited)	As at 31 December 2015 (audited)
Short-term borrowings	18,155,292	17,909,024
Non-current borrowings due within one year	656,364	649,003
Debentures payable due within one year	-	3,998,881
Long-term borrowings	29,041,014	23,684,838
Other current liabilities (issuance of commercial papers)	4,053,786	-
Total	51,906,456	46,241,746

In the first half of 2016, the net bank loans appropriated by the Group amounted to RMB5,324.877 million (same period in 2015: RMB5,008.519 million), representing a year-on-year increase of 6.32%. The Group's bank borrowings are mainly denominated in U.S. dollars, with the interest payments computed using fixed rates and floating rates. As at 30 June 2016, the Group's bank borrowings included fixed-rate borrowings of approximately RMB27,804.494 million (31 December 2015: RMB12,472.493 million), representing an increase of 122.93% as compared with the end of the previous year; floating-rate borrowings of RMB20,048.176 million (31 December 2015: RMB29,770.372 million), representing a decrease of 32.66% as compared with the end of the previous year. For details, please refer to note XIV. 3 of "Chapter VIII Interim Financial Report (Unaudited)" in this Report.

Chapter IV Management Discussion and Analysis Prepared in Accordance with the Hong Kong Securities Rules

CAPITAL STRUCTURE

The Group's capital structure consists of equity interest attributable to shareholders and liabilities. As of 30 June 2016, the Group's equity interest attributable to shareholders amounted to RMB34,353.688 million (31 December 2015: RMB35,494.876 million), the total liabilities amounted to RMB80,446.229 million (31 December 2015: RMB71,268.295 million) and the total assets amounted to RMB114,799.917 million (31 December 2015: RMB106,763.171 million). The Group is committed to maintaining an appropriate combination of equity and debt, in order to maintain an effective capital structure and provide maximum returns for shareholders.

At the end of the Reporting Period, the Group's gearing ratio was 70% (31 December 2015: 67%), which increased by 3 percentage points as compared with the end of the previous year, mainly due to the increase of the total liabilities for the current period as compared with the end of the previous year. (Calculation of the gearing ratio: based on the Group's total debts as at the respective dates divided by our total assets.)

FOREIGN EXCHANGE RISK AND RELEVANT HEDGE

The majority currency of the Group's business revenue is U.S. dollars, while most of its expenditure is made in RMB. As the exchange rates of RMB are affected by domestic and international economic and political situations, and the demand and supply of RMB, the Group is exposed to potential foreign exchange risk arising from the exchange rate fluctuation in RMB against other currencies, which may affect the Group's operating results and financial condition. The management of the Group has closely monitored its foreign exchange risk and taken appropriate measures to avoid foreign exchange risk. For details of the foreign exchange hedging contracts held by the Group during the Reporting Period, please refer to note IV. 2 and IV. 25 of "Chapter VIII Interim Financial Report (Unaudited)" in this Report.

INTEREST RATE RISK

The Group is exposed to the market interest rate change risk relating to its interest-bearing bank loans and other borrowings. To minimise the impact of interest rate risk, the Group entered into interest rate swap contracts with certain banks. For details, please refer to note IV. 24 of "Chapter VIII Interim Financial Report (Unaudited)" in this Report.

CREDIT RISK

The Group's credit risk is primarily attributable to cash at bank and on hand, receivables and derivative financial instruments entered into for hedging purposes. Exposure to these credit risks is monitored by the management on an on-going basis. For details, please refer to note XIV. 1 of "Chapter VIII Interim Financial Report (Unaudited)" in this Report.

PLEDGE OF ASSETS

As at 30 June 2016, the restricted assets of the Group totally amounted to RMB6,485.785 million (31 December 2015: RMB5,826.663 million), representing an increase of 11.31% as compared with the end of the previous year. For details, please refer to note IV. 23 of "Chapter VIII Interim Financial Report (Unaudited)" in this Report.

CAPITAL COMMITMENTS

As at 30 June 2016, the Group had capital expenditure commitments of approximately RMB340.197 million (31 December 2015: RMB960.181 million), which were mainly used as external investment contracts entered into but not performed or performed and manufacturing ships for sales or lease. For details, please refer to note XI. 1. (1) of "Chapter VIII Interim Financial Report (Unaudited)" in this Report.

CONTINGENT LIABILITY

As at 30 June 2016, the Group had contingent liabilities of approximately RMB81.072 million (31 December 2015: RMB79.940 million). For details, please refer to note X. 1 of "Chapter VIII Interim Financial Report (Unaudited)" in this Report.

Chapter IV Management Discussion and Analysis Prepared in Accordance with the Hong Kong Securities Rules

SIGNIFICANT INVESTMENTS AND MAJOR ACQUISITIONS AND DISPOSALS RELATING TO SUBSIDIARIES AND ASSOCIATED COMPANIES

During the Reporting Period, the Group completed the acquisition of 100% equity interests of Retlan Manufacturing Limited and 100% equity interests of Briggs Group Limited at a total consideration of RMB1,023.262 million. For details, please refer to note V. 1 of "Chapter VIII Interim Financial Report (Unaudited)" in this Report.

FUTURE PLANS FOR SIGNIFICANT INVESTMENTS AND EXPECTED SOURCES OF FUNDING

The operating and capital expenditures of the Group are mainly financed by our own fund and external financing. The Group will continue to take a prudent attitude to enhance its operating cash flow. The Group has sufficient sources of funding to meet the requirements of capital expenditure and working capital during the year.

CAPITAL EXPENDITURE AND FINANCING PLAN

Based on changes in the economic situation and operating environment, as well as the requirements of the Group's strategic upgrade and business development, the capital expenditure of the Group in 2016 was approximately RMB11,976 million, among which approximately RMB1,552 million was actually expensed in the first half of this year, which was mainly used for acquisition of fixed assets, intangible assets and other long-term assets.

On 31 May 2016, as considered and approved by the 2015 annual general meeting, the first 2016 A shareholders' class meeting and the first 2016 H shareholders' class meeting of the Company, the Company proposed to issue no more than 386,263,593 new A shares (including 386,263,593 shares) at an issuance price no less than RMB13.86 per share to no more than 10 (including 10) qualified investors including domestic institutional investors and individual investors that meet the relevant requirements and conditions. Gross proceeds shall not exceed RMB6,000 million. The Non-public Issuance of A Shares is subject to the approval of the China Securities Regulatory Commission. Various forms of financing arrangements will continue to be considered by the Group in the second half of this year.

USE OF PROCEEDS RAISED

On 31 December 2015, the Company issued a total of 286,096,100 H Shares to COSCO Container Industries Limited, Broad Ride Limited and Promotor Holdings Limited at HK\$13.48 per H Share, and the proceeds raised were approximately HK\$3,857 million (approximately RMB3,228 million), which were used to replenish the Group's working capital. As of 30 June 2016, the proceeds raised of HK\$3,856 million (equivalent to approximately RMB3,227 million) have been actually used by the Company. The proceeds raised of HK\$575,428 (equivalent to approximately RMB481,586) have not been used, which will be used to replenish the liquidity by the Company.

EMPLOYEES, TRAINING AND SHARE OPTION INCENTIVE SCHEME

As at 30 June 2016, the Group had 52,332 employees in total (same period in 2015: 61,723). The total staff cost during the Reporting Period, including Directors' remuneration, contribution to the retirement benefit schemes and share option scheme, amounted to RMB2,129.005 million (same period in 2015: RMB2,515.447 million), representing a year-on-year decrease of 15.36%.

Chapter IV Management Discussion and Analysis Prepared in Accordance with the Hong Kong Securities Rules

The Group provides salary and bonus payment to its employees based on their performance, qualification, experience and market earnings as a kind of incentive. The share option scheme aims to recognise the previous contribution of Directors and core employees to the Group and reward them for their long-term services. For details of the A Share(s) Share Option Incentive Scheme adopted by the Company, please refer to “VII. Implementation and Effect of the Company’s Share Option Incentive Scheme” under “Chapter V Significant Events” in this Report. Other benefits include contribution to the governmental pension schemes and insurance plans for employees in mainland China. The Group regularly reviews its remuneration policies, including the amount of remuneration payable to Directors, and strives to formulate an improved incentive and assessment mechanism based on the operating results of the Group and market conditions.

DIVIDEND DISTRIBUTION

The Board proposed that no interim cash dividend for 2016 shall be distributed, no bonus shall be issued, and no share shall be converted from reserves into share capital (same period of last year: Nil).

SOCIAL RESPONSIBILITIES

During the Reporting Period, uncertainty of global economy remains increasing. The Group maintained the stable and healthy development and constantly performed corporate social responsibilities by striving to overcome the adverse effects of the externally complicated environment of economy and making contributions to the economic growth, employment and development of the society. In the future, the Group will continue to deepen industrial transformation and upgrade with a strong presence in China while expanding the network overseas. The Group put more focus on the quality of development, so as to create more values for Shareholders, provide more trainings and rewards to its staffs with a better working environment, and provide high-quality products and services to its customers.

EVENTS AFTER THE BALANCE SHEET DATE

For details about the events after the balance sheet date of the Reporting Period, please refer to note XII of “Chapter VIII Interim Financial Report (Unaudited)” in this Report.

DISCLOSURE UNDER THE HONG KONG LISTING RULES

In accordance with paragraph 40 of Appendix 16 of the Hong Kong Listing Rules, the Company confirms that, save as disclosed herein, there has been no material change in the current information regarding the Company from the information disclosed in the 2015 annual report of the Company.

Chapter V Significant Events

I. CORPORATE GOVERNANCE

During the Reporting Period, the Group continued to promote governance in compliance with laws and maintained normal operation strictly in accordance with the relevant provisions of the state and the regulations and documents issued by regulatory authorities including the China Securities Regulatory Commission, CSRC Shenzhen, Shenzhen Stock Exchange, SFC and Hong Kong Stock Exchange.

In the first half of 2016, the Group further carried out the construction and supervision of its internal control system to realise a full coverage. The Group continued to thoroughly propel four key tasks in respect of internal control, namely establishment of the internal control compliance programme, construction of the IT-based internal control projects, compilation of internal control manual for each level, and training of internal control personnel, with the Personnel Training Plan for the Internal Control and Audit System of CIMC (2016-2020) finalized and the Plan for the Training of the Internal Control and Audit Team and Project Coordination of the Group for 2016 formulated to officially launch out the training of supervisors for internal control of the Group.

During the Reporting Period, the Group focused on governance in compliance with laws in the internal control work and updated part of systems and rules according to requirements of the regulatory bodies of Hong Kong and Mainland China on securities, including the Information Disclosure Management System of China International Marine Containers (Group) Co., Ltd., the Management Policy for Fund Raised, the Rules of Procedures for the Board Meeting of China International Marine Containers (Group) Co., Ltd. and the Implementation Rules of the Audit Committee under the Board of China International Marine Containers (Group) Co., Ltd..

II. CORPORATE GOVERNANCE

1. Compliance with the Principles and Code Provisions under the Corporate Governance Code by the Company during the Reporting Period

The Board of the Company is committed to raising the standard of corporate governance within the Group and believes that good corporate governance helps the Group to safeguard the interests of the Shareholders and improve its business performance. The Company has complied with the code provisions under the Corporate Governance Code set out in Appendix 14 of the Hong Kong Listing Rules during the Reporting Period, except for slight deviation from the code provisions A.2.7 Deviations from relevant code provisions as set out in 2015 annual report of the Company have been partly improved. Deviations and their improvements have been disclosed in relevant paragraphs below.

(1) The Board

During the Reporting Period, the term of the seventh session of the Board of the Company expired. As approved at the annual general meeting for 2015 of the Company held on 31 May 2016, Mr. Wang Hong, Mr. Wang Yuhang, Mr. Wang Zhixian and Mr. Liu Chong were elected as non-executive Directors of the eighth session of the Board; Mr. Mai Boliang was elected as executive Director of the eighth session of the Board; Mr. Pan Chengwei, Mr. Pan Zhengqi and Mr. Wong Kwai Huen, Albert were elected as independent non-executive Directors of the eighth session of the Board. As considered at the first meeting of the eighth session of the Board in 2016 held on the same day, Mr. Wang Hong was elected as Chairman, and Mr. Wang Yuhang was elected as Vice Chairman.

During the Reporting Period, 6 meetings of the Board were held by the seventh session of the Board, of which 1 meeting was held on-site, 5 meetings were held in a way of written review resolutions with 43 resolutions reviewed; 3 meetings of the Board were held by the eighth session of the Board, of which 1 meeting was held on-site, 2 meetings were held in a way of written review resolutions with 4 resolutions reviewed. Of the 9 Board Meetings in total, 1 was regular meeting and 8 were interim meetings.

Chapter V Significant Events

Save for regular meetings, in the course of the management and supervision of the Group's business operations, the Company's executive Directors have brought major business or management matters to the attention of the Board to hold an interim Board meeting from time to time, and relevant Board decisions were made in the form of written resolutions by all Directors.

As considered and approved at the 2015 annual general meeting held on 31 May 2016, the Company has amended the Rules of Procedures of the Board of China International Marine Containers (Group) Co., Ltd. and added the authorities of evaluating and determining the nature and extent of risks that the Company is willing to take in achieving the strategic objectives, ensuring that the Company establishes and maintains an appropriate and effective risk management and internal control system and being responsible for supervising the design, implementation and monitoring of risk management and internal control system by the management to the authorities of the Board. The Company has also amended the main duties of Audit Committee accordingly.

(2) Board Committees

During the Reporting Period, the Board Committees of the Company also completed re-election successfully. During the Reporting Period, 9 meetings were held by special Board committees with 13 letters of opinions from Board committees passed.

(3) The Supervisor Committee

During the Reporting Period, the term of the seventh session of the Supervisory Committee of the Company expired. On 31 May 2016, as considered and approved at the 2015 annual general meeting of the Company, Mr. Lin Wuliu and Mr. Zhang Mingwen were elected as the supervisors on behalf of shareholders for the eighth session of the Supervisory Committee. On the same day, as considered and approved at the general staff meeting of the Company, Mr. Xiong Bo was elected as the supervisor on behalf of staff for the eighth session of the Supervisory Committee. On 31 May 2016, as considered and approved at the first meeting of the eighth session of the Supervisory Committee in 2016, Mr. Zhang Mingwen was elected as the chairman of the Supervisory Committee.

During the Reporting Period, 3 meetings of the seventh session of the Supervisory Committee were held with 18 resolutions reviewed and 1 event considered. 1 meeting of the eighth session of the Supervisory Committee was held with 1 resolution reviewed and 0 event considered. The Supervisors were in attendance at 9 meetings of the Board on a non-voting basis and Supervisor Xiong Bo attended Shareholders' general meeting once.

(4) Shareholders' general meeting

On 31 May 2016, the Company held the 2015 annual general meeting, the First 2016 A Shareholders' Class Meeting and the First 2016 H Shareholders' Class Meeting. The notice, convening, holding and voting procedures of such meetings were in compliance with the relevant requirements of the PRC Company Law, the Articles of Association and the Hong Kong Listing Rules. The announcements on the related resolutions of the meetings were published in China Securities Journal, Shanghai Securities News and Securities Times and on Cninfo website (<http://www.cninfo.com.cn>) on 1 June 2016, and on the websites of the Hong Kong Stock Exchange (<http://www.hkexnews.hk>) and the Company (<http://www.cimc.com>).

Chapter V Significant Events

The non-executive Director Mr. Wang Hong, executive Director Mr. Mai Boliang and independent non-executive Directors Mr. Pan Chengwei and Mr. Wong Kwai Huen, Albert attended the abovementioned general meetings. Non-executive Directors Mr. Zhang Liang and Mr. Wu Shuxiong and independent non-executive Director Mr. Li Kejun failed to attend due to other important affairs.

(5) Amendments to Articles of Association

On 31 May 2016, as considered and approved at the 2015 annual general meeting, the Company amended "The Articles of China International Marine Containers (Group) Co., Ltd.". Details of the amendments to the Articles of Association and the full text of the amended Articles of Association were published in China Securities Journal, Shanghai Securities News, Securities Times, Cninfo website (<http://www.cninfo.com.cn>), the Company's website (www.cimc.com) and the Hong Kong Stock Exchange's website (<http://www.hkexnews.hk>) and the website of the Company (<http://www.cimc.com>) on 9 April 2016 and 1 June 2016, respectively.

(6) Updates regarding to deviations from code provisions as set out in 2015 annual report of the Group

The code provision A.2.7 requires that "The chairman shall convene at least one meeting every year with the non-executive Directors (including independent non-executive Directors) without the executive Directors present". The Company has only one executive Director Mr. Mai Boliang and the Company's business operation is managed and monitored by the executive Director. During the Reporting Period, the Company's CEO and President Mr. Mai Boliang shall not take part in the matter regarding the adjustment of such executive Director's fixed remuneration for 2016. In addition, during the Reporting Period, the Company has not held a Board meeting without the executive Director present.

2. Compliance with the Model Code on Directors and Supervisors of the Company for Securities Transactions

The Company has adopted the standards prescribed in the Model Code contained in Appendix 10 of the Hong Kong Listing Rules as the code of conduct in dealing in securities by Directors and Supervisors of the Company. After inquiries to all the Directors and Supervisors, all the Directors and Supervisors confirmed that they had fully complied with the requirements in the Model Code during the Reporting Period.

3. Audit Committee

The Company has appointed three independent non-executive Directors and established the audit committee pursuant to the requirements of the Hong Kong Listing Rules. The members of the audit committee consisted of Mr. Pan Chengwei (chairman of the audit committee with professional qualifications and experience in relation to financial management such as accounting), Mr. Pan Zhengqi and Mr. Wong Kwai Huen, Albert.

On 8 April 2016, the seventh session of the Board of the Company has considered and approved the amendments to the Implementation Rules of the Audit Committee of China International Marine Containers (Group) Co., Ltd., which amended and added to the responsibility and authority of Audit Committee in the oversight of the Company's financial reporting system and internal control procedures, including: to review the implementation of Company's risk management and internal control system and the self-assessment of internal control, and to consider and identify the company's significant risk and significant control defects; to study the important findings of risk management and internal control matters and the management's response to the findings on its own initiative or as delegated by the Board; and to supervise the establishment and implementation of the risk management and internal control system by the management, and ensure that the system is effective, etc.

On 29 August 2016, the audit committee reviewed the interim financial report of the Group for the six months ended 30 June 2016, and agreed to present the same to the Board.

For details of the corporate mergers of the Group during the Reporting Period, please refer to note V of “Chapter VIII Interim Financial Report (Unaudited)” in this Report.

VII. IMPLEMENTATION AND EFFECT OF THE COMPANY’S SHARE OPTION INCENTIVE SCHEME

1. Summary of Share Option Incentive Scheme

(1) Share option scheme of the Company

In order to establish and improve the incentive-constraint mechanism, and effectively combine the interests of the Shareholders, the interests of the Company and the personal interests of individuals, an A Share(s) Share Option Incentive Scheme was considered and approved at the extraordinary general meeting of the Company on 17 September 2010. According to such scheme, the first tranche of 54,000,000 share options (the “First Tranche of Share Options”) were registered on 26 January 2011 and the second tranche of reservation of 6,000,000 share options (the “Second Tranche of Share Options”) were registered on 17 November 2011 by the Company.

As at 12 May 2015, upon the consideration at the eighth meeting of the seventh session of the Board in 2015, the options of the second exercisable period for the First Tranche of Share Options have met the exercise conditions and were actually exercisable starting from 2 June 2015 to 27 September 2020 with the total exercisable options amounting to 39,660,000 options. As at 9 October 2015, upon the consideration at the fourteenth meeting of the seventh session of the Board in 2015, the options of the second exercisable period for the Second Tranche of Share Options have met the exercise conditions and were actually exercisable starting from 24 October 2015 to 27 September 2020 with the total exercisable options amounting to 4,132,500 options. As at 26 July 2016, upon the consideration at the fifth meeting of the eighth session of the Board in 2016 and the implementation on 20 July 2016 of the annual dividend distribution plan of the Company for 2015, the adjusted option exercise price for the First and Second Tranche of Share Options is RMB10.55 and RMB16.08, respectively.

During the Reporting Period, the total exercisable options of A Share(s) Share Option Incentive Scheme amounted to 539,700 options, representing 0.98% of the total (adjusted), of which, totaling 499,600 options were exercised during the second exercisable period for the First Tranche of Share Options, and totaling 40,100 options were exercised during the second exercisable period for the Second Tranche of Share Options. The implementation of A Share(s) Share Option Incentive Scheme has no material impact on the Company’s financial conditions and results of operation during the Reporting Period and in the future.

(2) Share option incentive scheme of the subsidiary CIMC Enric

CIMC Enric passed and adopted a share option scheme (“2006 Share Option Scheme”) at its extraordinary general meeting held on 12 July 2006, pursuant to which CIMC Enric granted a total of 120,370,000 share options as rewards and benefits provided to certain employees, directors and other eligible persons for their contributions to CIMC Enric in November 2009, October 2011 and June 2014. For details, please refer to the related announcement of CIMC Enric published on the website of the Hong Kong Stock Exchange, the relevant announcements released on the websites of the Shenzhen Stock Exchange, the Hong Kong Stock Exchange and the Company as well as relevant regular reports of the Company in recent years. As of 30 June 2016, a total of 8,100,000 share options of the 2006 Share Option Scheme have been lapsed. The 2006 Share Option Scheme is expected to expire in 2016.

Chapter V Significant Events

On 20 May 2016, the annual general meeting of CIMC Enric passed and adopted a new share option scheme ("2016 Share Option Scheme") and terminated the 2006 Share Option Scheme. When the 2006 Share Option Scheme was terminated, there were no other share options available to be granted, while share options granted before termination remain effective and are available for exercise in accordance with provisions of the Scheme. Since adoption of the 2016 Share Option Scheme, no share option has been granted by CIMC Enric pursuant to the 2016 Share Option Scheme.

(3) Implementation of the equity trust scheme of CIMC Vehicle

An equity trust scheme of the Company's wholly-owned subsidiary CIMC Vehicle was considered and approved at the general meeting of the Company held on 17 October 2007 for implementation. Pursuant to the scheme, the senior management relating to the vehicle business of the Company and the key employees of CIMC Vehicle held

XV. EXPLANATION ON OTHER MATERIAL EVENTS

1. On 31 March 2016, the Company was informed by China Shipping Container Lines Co., Ltd ("CSCL") that the transaction for its wholly-owned subsidiary China Shipping Container Lines (Hong Kong) Co., Limited ("CSHK") to purchase the 100% equity interest in Long Honour Investments Limited from COSCO (Hong Kong) Group Limited was completed on 31 March 2016. On 4 May 2016, the Company was informed by China Shipping (Group) Company ("China Shipping") that the State-owned Assets Supervision and Administration Commission of the State Council ("SASAC") gratuitously transferred its 100% interest in China Shipping to China COSCO Shipping Corporation Limited ("China COSCO Shipping"). After the Gratuitous Transfer, China COSCO Shipping indirectly held 432,171,843 A shares and 245,842,181 H shares of the Company through CSCL and its subsidiaries, as the second largest shareholder of the Company. For relevant information, please refer to the announcements (Notice No.: [CIMC] 2016-012, [CIMC] 2016-027) disclosed in China Securities Journal, Shanghai Securities News, Securities Times, Cninfo website (www.cninfo.com.cn), the Company's website (www.cimc.com), and the announcement published on the website of the Hong Kong Stock Exchange (www.hkexnews.hk) by the Company on 1 April 2016 and 5 May 2016.
2. On 8 April 2016, as considered and approved by the third meeting of the seventh session of the Board for 2016 of the Company, the Company proposed to issue no more than 386,263,593 new A shares (including 386,263,593 shares) at an issuance price no less than RMB13.86 per share to no more than 10 (including 10) qualified investors including domestic institutional investors and individual investors that meet the relevant requirements and conditions ("the Non-public Issuance of A Shares"). Gross proceeds shall not exceed RMB6,000 million. The Non-public Issuance of A Shares was approved at the 2015 annual general meeting, the first 2016 A shareholders' class meeting and the first 2016 H shareholders' class meeting of the Company held on 31 May 2016, which subjects to the approval of the China Securities Regulatory Commission. For relevant information, please refer to the announcements (Notice No.: [CIMC] 2016-018 and [CIMC] 2016-033) disclosed in China Securities Journal, Shanghai Securities News, Securities Times, Cninfo website (www.cninfo.com.cn), the Company's website (www.cimc.com) and the announcements published on the website of the Hong Kong Stock Exchange (www.hkexnews.hk) by the Company on 9 April 2016 and 1 June 2016, respectively.

Chapter V Significant Events

3. On 23 May 2016, the 2011 first tranche of medium term note on the National Inter-bank Bond Market issued by the Company on 20 May 2011 was due and the Company repaid the principal and interests of such note on the maturity date. For relevant information, please refer to the announcements (Notice No.: [CIMC] 2010-039, [CIMC] 2011-015, [CIMC] 2011-016 and [CIMC] 2016-030) disclosed in China Securities Journal, Securities Times, Shanghai Securities News, Cninfo website (www.cninfo.com.cn), the Company's website (www.cimc.com) and the announcement published on the website of the Hong Kong Stock Exchange (www.hkexnews.hk) by the Company on 16 November 2010, 10 May 2011, 19 May 2011 and 24 May 2016, respectively.
4. On 31 May 2016, the Company considered and approved the Resolution on the Registration and Issuance of Medium Term Notes (including Perpetual Medium Term Notes) and Super & Short-term Commercial Papers in the PRC at the annual general meeting of 2015 which, among others, approved the issuance by the Company of RMB medium term note with a size of not more than RMB6.0 billion. On 11 August 2016, the Company issued the first tranche of the Medium Term Note for 2016 with a size of RMB3.5 billion, a coupon rate of 3.07% and a term of three years. On 22 August 2016, the Company issued 2016 Tranche II Medium Term Notes with a size of RMB2.5 billion, a coupon rate of 3.15% and a term of three years. For relevant information, please refer to the announcements (Notice No.: [CIMC] 2016-033, [CIMC] 2016-045 and [CIMC] 2016-048) disclosed in China Securities Journal, Securities Times, Shanghai Securities News, Cninfo website (www.cninfo.com.cn), the Company's website (www.cimc.com) and the announcements published on the website of the Hong Kong Stock Exchange (www.hkexnews.hk) by the Company on 1 June 2016, 13 August 2016 and 23 August 2016, respectively.
5. On 18 August 2016, the Company signed a strategic cooperation framework agreement with Global Logistic Properties Investment Management (China) Co., Ltd.. Under the Agreement, both parties intend to jointly develop their logistic properties business and forge a comprehensive strategic partnership based on their relevant strategic resources, so as to achieve benefits from complementary advantages and powerful alliances. For relevant information, please refer to the announcement (Notice No.: [CIMC] 2016-047) disclosed in China Securities Journal, Shanghai Securities News, Securities Times, Cninfo website (www.cninfo.com.cn), the Company's website (www.cimc.com) by the company on 19 August 2016, and the relevant announcement published on the website of the Hong Kong Stock Exchange (www.hkexnews.hk), respectively.
6. On 24 August 2016, the Company signed a Sales Framework Agreement with CSCL, pursuant to which the Group agreed to provide commodities (including but not limited to containers) to CSCL, and agreed on the estimated aggregate transaction amount for the year ended 31 December 2016. For relevant information, please refer to the announcement (Notice No.: [CIMC] 2016-050) disclosed in China Securities Journal, Shanghai Securities News, Securities Times, Cninfo website (www.cninfo.com.cn), the Company's website (www.cimc.com) by the Company on 25 August 2016, and the relevant announcement published on the website of the Hong Kong Stock Exchange (www.hkexnews.hk) on 24 August 2016.

Templeton Asset Management Ltd.	H Shares	97,132,767 (L)	Investment manager	5.66%	3.26%

(L) Long Position

Note 1: CM Group, through various subsidiaries (including China Merchants Port Holdings Company Limited (formerly known as China Merchants Holdings (International) Company Limited), and China Merchants (CIMC) Investment Limited etc.) had an interest in the H Shares of the Company, and all the 728,809,817 H Shares (long position) were held in the capacity as interest of corporation controlled by the substantial Shareholder.

Note 2: China COSCO Shipping, through various subsidiaries (including China Shipping (Group) Company, China Shipping Container Lines Co., Ltd., Long Honour Investment Limited and COSCO Container Industries Limited etc.), had an interest in the A Shares and H Shares of the Company, and 432,171,843 A Shares and 245,842,181 H Shares (long position) were held in the capacity as interest of corporation controlled by the substantial Shareholder.

Note 3: Honoy Group Management Limited, through various subsidiaries (including Broad Ride Limited), had an interest in the H Shares of the Company, and 215,203,846 H Shares (long position) were held in the capacity as interest of corporation controlled by the substantial Shareholder and 143,048,050 H Shares were held in the capacity as person having security interest in shares.

Save as disclosed above and so far as the Directors are aware, as at 30 June 2016, no other person (other than a Director, Supervisor or senior management of the Company) had any interests recorded in the register of interests in shares and short positions required to be kept by the Company pursuant to Section 336 of the Securities and Futures Ordinance of Hong Kong.

Chapter VI Changes in Share Capital and Information on Substantial Shareholders

IV. CHANGES OF SUBSTANTIAL SHAREHOLDERS, CONTROLLING SHAREHOLDERS OR DE FACTO CONTROLLER

1. Change of Controlling Shareholders during the Reporting Period

Applicable Not applicable

There is no controlling Shareholder of the Company, no change during the Reporting Period.

2. Change of the De Facto Controller during the Reporting Period

Applicable Not applicable

There is no de facto controller of the Company, no change during the Reporting Period.

3. Substantial Shareholders

The substantial Shareholders of the Company are CM Group and China COSCO Shipping.

CM Group was incorporated on 14 October 1986 in the PRC. Its registered capital is RMB10,050 million and its chairman of the board of directors is Li Jianhong. CM Group's three core business sectors focus on the construction, operation and service in respect of transportation and related infrastructure (ports, toll roads, energy transportation and logistics), financial investment and management, property development and management. As of the end of the Reporting Period, CM Group, the first largest substantial shareholder of the Company, through its subsidiaries (including China Merchants Port Holdings Company Limited (formerly known as China Merchants Holdings (International) Company Limited) and China Merchants (CIMC) Investment Limited etc.) held 24.47% of the issued shares of the Company.

China COSCO Shipping was incorporated on 5 February 2016 in the PRC. Its registered capital is RMB11 billion and its legal representative is Xu Lirong. China COSCO Shipping will take shipping, integrated logistics and related financial service as the pillar to provide global integrated logistics supply chain services among various industrial clusters. As of the end of the Reporting Period, China COSCO Shipping, the second largest substantial shareholder of the Company, through its subsidiaries (including China Shipping (Group) Company, China Shipping Container Lines Co., Ltd., Long Honour Investment Limited and COSCO Container Industries Limited etc.) held 22.76% of the issued shares of the Company.

Except for the abovementioned CM Group and China COSCO Shipping, no other legal person or individual holds 10% or more of the total issued share capital of the Company (excluding HKSCC Nominees Limited).

I. GENERAL INFORMATION

China International Marine Containers (Group) Co., Ltd. (the "Company"), formerly "China International Marine Containers Co., Ltd.", was a Sino-foreign joint venture set up by China Merchants Group, the East Asiatic Company (Denmark) and Ocean Containers Inc. (USA). In December 1992, as approved by "Shen Fu Ban Fu [1992] 1736" issued by the General Office of the People's Government of Shenzhen and "Shen Ren Yin Fu Zi (1992) 261" issued by Shenzhen Special Economic Zone Branch of People's Bank of China, the Company was restructured as an incorporated company set up by directional subscription and was renamed as "China International Marine Containers Co., Ltd." by the original corporate shareholders of the Company. On 31 December 1993 and 17 January 1994 respectively, the Company issued ordinary shares denominated in Renminbi for domestic investors (A Shares) and for foreign shares issued domestically (B Shares), and commenced trading on Shenzhen Stock Exchange. Pursuant to "Shen Fu Ban Fu [1993] 925" issued by the General Office of the People's Government of Shenzhen and "Shen Zheng Ban Fu [1994] 22" issued by Shenzhen Securities Administration Office On 1 December 1995, as approved by the State Administration of Industry and Commerce, the Company changed its name to "China International Marine Containers (Group) Co., Ltd". The Registered Address and Address of Head Office of the company is 8th Floor, CIMC R&D Centre, 2 Gangwan Avenue, Shekou, Nanshan District, Shenzhen, Guangdong, PRC.

On 19 December 2012, the Company's domestically listed foreign shares (B shares) changed listing location and went publication on the main market of the Stock Exchange of Hong Kong through the way of introduction. Henceforth, all the company's B shares converted to overseas listed foreign shares (H shares).

As at 30 June 2016, the company has settled the equity private placement with 286,096,100 H shares to COSCO Container Industries Co., Ltd., Broad Ride Limited and promotor Holdings Limited, the price of this private placement is HKD13.48 each share (equivalent to RMB11.28), the overall funding raised is HKD3,856,575,000 (equivalent to RMB3,227,639,000), and all funding has been collected before 30 June 2016. Please refer to Note IV.42 for details of the share capital.

The principal activities of the Company and its subsidiaries (together referred to as the "Group") are the manufacturing of modern transportation facilities, facilities for energy, food, chemistry and rendering of relative services. Detailed activities are the manufacturing and repairing of containers and other relevant business; utilizing the Group's equipment to process and manufacture various parts, structure components and relevant machines; providing cutting, punching, moulding, riveting surface treatment (including sand/paint spraying, welding and assembly) and other processing services; developing, manufacturing and selling of various high-tech and high performance special vehicles and semi-trailers; leasing of containers; developing, production and sales of high-end fuel gas equipments such as pressure container and compressor; providing integrated services for natural gas distribution; production of static container and pot-type wharf equipments and providing EP+CS (engineering procurement and construction supervision) technical service for the storage and processing of LNG, LPG and other petrochemical gases. Apart from the above, the Group is also engaged in manufacturing of logistic equipment and related services, marine projects, railway trucks production and property development, etc.

CIMC Enric Holdings Limited, the subsidiary of the Group, is listed in the Main Board of the Stock Exchange of Hong Kong Limited. The principal activities of Enric are the design, development, manufacturing, engineering and sales of, and the provision of technical maintenance service for, a wide spectrum of transportation, storage and processing equipment that is widely used in energy, chemical and liquid food industries.

Pteris Global Limited, the subsidiary of the Group, is listed on the mainboard of the Catalist of Singapore Exchange Ltd. The principal activities of the Pteris Global Ltd are electrical products used in airports and ports, automatic parking system and equipment, automation logistics warehousing system and equipment, airport equipment (aviation food vehicles, self-propelled aircraft deicing vehicle, anti ice, container, pallet loaders, spreading vehicle, snowplows, friction coefficient test vehicle), installation and after sale service of self-produced products and agents product and provide parking management services.

Notes to the Financial Statements

For the period ended 30 June 2016
(All amounts in RMB'000 unless otherwise stated)
English Translation for Reference Only

I. GENERAL INFORMATION (CONTINUED)

Please refer to Note VI for details of subsidiaries included in the scope of consolidation and also refer to Note V.1 for the details of subsidiaries newly included in the scope of consolidation. Please refer to Note V.2 for the details of subsidiaries excluded from the scope of consolidation.

This financial statements have been approved for announcement by the Company's Board of Directors on 30 August 2016.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

The Group makes specific accounting policies and accounting estimates according to characteristics of its business operations, which include provision of bad debt of receivables (Note II.10), the cost of inventories (Note II.11), the criteria for determining impairment of non-current assets (Note II.20), depreciation policy of investment properties, fixed assets and amortisation policy of intangible assets (Note II.13, 14 and 17), measurement of provisions (Note II.21) and revenue recognition (Note II.23), etc.

Key judgments applied for critical accounting policies by the Group are disclosed in Note II.33.

1. Basis of preparation

The financial statements were prepared in accordance with the Basic Standard and specific standards of the Accounting Standards for Business Enterprises issued by the Ministry of Finance on 15 February 2006, the Application Guidance for Accounting Standards for Business Enterprises, the Interpretations of Accounting Standards for Business Enterprises and other relevant regulations issued (hereafter collectively referred to as 'the Accounting Standards for Business Enterprises' or 'CAS') and the disclosure requirements in the Preparation Convention of Information Disclosure by Companies Offering Securities to the Public No.15 – General Rules on Financial Reporting (2010 revised) issued by the China Securities Regulatory Commission.

The financial statements are prepared on a going concern basis.

The new "Companies Ordinance" of Hong Kong has commenced operation in the period. Some notes in this financial statement have been adjusted according to requirements of the ordinance.

2. Statement of compliance with the Accounting Standards for Business Enterprises

The financial statements of the Company for the period ended 30 June 2016 are in compliance with the Accounting Standards for Business Enterprises, and truly and completely present the financial position of the Consolidated and the Company as of as at 30 June 2016 and of their financial performance, cash flows and other information for the period then ended.

3. Accounting year

The Company's accounting year starts from 1 January to 31 December.

Notes to the Financial Statements

For the period ended 30 June 2016

(All amounts in RMB'000 unless otherwise stated)

English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4. Recording currency

Functional currency is determined by the Company and its subsidiaries on the basis of the currency in which major income and costs are denominated and settled.

The functional currency of the Company and its subsidiaries domiciled in PRC are Renminbi. Hong Kong and the overseas subsidiaries use local currencies as their functional currencies. Foreign currencies are defined as currency other than functional currency.

Financial statements of the Company are presented in Renminbi. For subsidiaries using currencies other than Renminbi as their functional currencies, the Company translates the financial statements of these subsidiaries into Renminbi (see Note II.8).

5. Business combinations

(1) Business combinations in operating enterprises under common control

A business combination involving enterprises under common control is a business combination in which all of the combining enterprises are ultimately controlled by the same party or parties both before and after the business combination, and that control is not transitory. The assets and liabilities obtained are measured at the carrying amounts as recorded by the enterprise being combined at the combination date. The difference between the carrying amount of the net assets obtained and the carrying amount of consideration paid for the combination (or the total face value of shares issued) is adjusted to capital premium in the capital reserve. If the balance of the capital premium is insufficient, any excess is adjusted to retained earnings. Any costs directly attributable to the combination shall be recognised in profit or loss for the current period when occurred. The combination date is the date on which one combining enterprise effectively obtains control of the other combining enterprises.

(2) Business combinations in operating enterprises not under common control

A business combination involving enterprises not under common control is a business combination in which all of the combining enterprises are not ultimately controlled by the same party or parties both before and after the business combination. Where 1) the aggregate of the fair value at the acquisition date of assets transferred (including the acquirer's previously held equity interest in the acquiree), liabilities incurred or assumed, and equity securities issued by the acquirer, in exchange for control of the acquiree, exceeds 2) the acquirer's interest in the fair value at the acquisition date of the acquiree's identifiable net assets, the difference is recognised as goodwill (see Note II.18). When 1) is less than 2), the difference is recognised in profit or loss for the current period. The costs of the issuance of equity or debt securities as a part of the consideration paid for the acquisition are included as a part of initial recognition amount of the equity or debt securities. Other direct acquisition-related costs arising from the business combination are recognised as expenses in the periods in which the costs are incurred. The difference between the fair value and the carrying amount of the assets transferred is recognised in profit or loss. The acquiree's identifiable asset, liabilities and contingent liabilities, if satisfying the recognition criteria, are recognised by the Group at their fair value at the acquisition date. The acquisition date is the date on which the acquirer effectively obtains control of the acquiree.

Notes to the Financial Statements

For the period ended 30 June 2016
(All amounts in RMB'000 unless otherwise stated)
English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

6. Preparation of consolidated financial statements

The scope of consolidated financial statements is based on control and the consolidated financial statements comprise the Company and its subsidiaries. Control means the group has rights in the invested entity, and could gain returns through its involvement with the entity as well as has the ability to affect those returns through its power over the entity. The financial position, financial performance and cash flows of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Where a subsidiary was acquired during the reporting period, through a business combination involving enterprises under common control, the financial statements of the subsidiary are included in the consolidated financial statements as if the combination had occurred at the date that the ultimate controlling party first obtained control. The opening balances and the comparative figures of the consolidated financial statements are also restated. In the preparation of the consolidated financial statements, the subsidiary's assets and liabilities based on their carrying amounts are included in the consolidated balance sheet, and financial performance is included in the consolidated income statement, respectively, from the date that the ultimate parent company of the Company obtains the control of the subsidiary to be consolidated.

Where a subsidiary was acquired during the reporting period, through a business combination involving enterprises not under common control, the identifiable assets and liabilities of the acquired subsidiaries are included in the scope of consolidation from the date that control commences, base on the fair value of those identifiable assets and liabilities at the acquisition date.

For a business combination not involving enterprises under common control and achieved in stages, the Group remeasures its previously-held equity interest in the acquiree to its fair value at the acquisition date. The difference between the fair value and the carrying amount is recognised as investment income for the current period; the amount recognised in other comprehensive income relating to the previously-held equity interest in the acquiree is reclassified as investment income for the current period.

Notes to the Financial Statements

For the period ended 30 June 2016

(All amounts in RMB'000 unless otherwise stated)

English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

6. Preparation of consolidated financial statements (Continued)

Owners' equity of subsidiaries, profit or loss and comprehensive income not attributable to the Company are recorded as minority interests, profit or loss attributable to minority shareholders and comprehensive income attributable to minority shareholders, respectively, and are presented separately within the items of owners' equity, net profit and total comprehensive income in the consolidated financial statements.

When the amount of loss for the current period attributable to the minority shareholders of a subsidiary exceeds the minority shareholders' portion of the opening balance of shareholders' equity of the subsidiary, the excess is allocated against the minority interests.

When the accounting period or accounting policies of a subsidiary are different from those of the Company, the Company makes necessary adjustments to the financial statements of the subsidiary based on the Company's own accounting period or accounting policies.

All significant inter-group balances, transactions and unrealised profits are eliminated in the consolidated financial statements. The portion of a subsidiary's equity and the portion of a subsidiary's net profit and loss for the period as well as comprehensive income not attributable to Company are recognised as minority interests, net profit and loss attributable to minority interests as well as and comprehensive income attributable to minority interests presented separately in the consolidated financial statements within equity and net profit as well as total comprehensive income respectively. The unrealised profit and loss arising from sales of assets to subsidiaries by the Company are fully eliminated against net profit attributable to owners of the Company. The unrealised profit and loss arising from sales of assets to the Company by subsidiaries are eliminated against net profit attributable to owners of the Company as well as net profit attributable to minority interests respectively according to the Company and minority interests' shareholding on the subsidiaries. The unrealized profit and loss arising from sales of between subsidiaries are eliminated against net profit attributable to owners of the Company as well as net profit attributable to minority interests respectively according to the Company and minority interests' share holdings on the subsidiary who sells.

The difference on recognising a same transaction between on the accounting subjects of the Group and of the Company or its subsidiaries would be adjusted on the accounting subject of the Group.

7. Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, deposits that can be readily drawn on demand, and short-term and highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Notes to the Financial Statements

For the period ended 30 June 2016
(All amounts in RMB'000 unless otherwise stated)
English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

8. Foreign currency transactions and translation of financial statements denominated in foreign currency

When the Group receives capital in foreign currencies from investors, the capital is translated to functional currency at the spot exchange rate at the date of the receipt. Other foreign currency transactions are, on initial recognition, translated to functional currency at the rates that approximate the spot exchange rates at the dates of the transactions.

A spot exchange rate is an exchange rate quoted by the People's Bank of China. A rate that approximates the spot exchange rate is a rate determined under a systematic and rational method, normally the average exchange rate of the current period or the weighted average exchange rate.

Monetary items denominated in foreign currencies are translated to functional currency at the spot exchange rate at the balance sheet date. The resulting exchange differences, except for those arising from the principal and interest of specific foreign currency borrowings for the purpose of acquisition, construction or production of qualifying assets (see Note II.16), are recognised in profit or loss. Non-monetary items denominated in foreign currencies that are measured at historical cost are translated to functional currency using the foreign exchange rate at the transaction date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated using the foreign exchange rate at the date the fair value is determined; the resulting exchange differences are recognised in profit or loss, except for the differences arising from the translation of available-for-sale financial assets, which are recognised as other comprehensive income. The effect of exchange rate changes on cash presented separately in the cash flow statement.

The assets and liabilities of foreign operation are translated to functional currency at the spot exchange rates at the balance sheet date. The equity items, excluding "Retained earnings", are translated to functional currency at the spot exchange rates at the transaction dates. The income and expenses of foreign operation are translated to functional currency at the rates that approximate the spot exchange rates at the transaction dates. The resulting translation differences are recognised in a separate component of equity. Upon disposal of a foreign operation, the cumulative amount of the translation differences recognised in equity which relates to that foreign operation is transferred to profit or loss in the period in which the disposal occurs. The cash flows of overseas operations are translated at the spot exchange rates on the dates of the cash flows. The effect of exchange rate changes on cash presented separately in the cash flow statement.

Notes to the Financial Statements

For the period ended 30 June 2016

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

9. Financial instruments

Financial instruments include cash at bank and on hand, financial assets at fair value through profit or loss, receivables, available-for-sale financial assets, investments in equity securities other than long-term equity investments, payables, loans, borrowings and debentures payables.

(1) Financial Assets

(a) *Classification of financial assets*

Financial assets are classified into the following categories at initial recognition: financial assets at fair value through profit or loss, receivables, available-for-sale financial assets and held-to-maturity investments. The classification of financial assets depends on the Group's intention and ability to hold the financial assets.

a. Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for the purpose of selling in short term.

b. Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

c. Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of it within 12 months of the end of the reporting period.

(b) *Recognition and measurement*

Financial assets are recognised at fair value on the balance sheet when the Group becomes a party to the contractual provisions of the financial instrument. In the case of financial assets at fair value through profit or loss, the related transaction costs incurred at the time of acquisition are recognised in profit or loss for the current period. For other financial assets, transaction costs that are attributable to the acquisition of the financial assets are included in their initial recognition amounts.

Financial assets at fair value through profit or loss are subsequently measured at fair value. Investments in equity instruments are measured at cost when they do not have a quoted market price in an active market and whose fair value cannot be reliably measured. Receivables are measured at amortised cost using the effective interest method.

Notes to the Financial Statements

For the period ended 30 June 2016
(All amounts in RMB'000 unless otherwise stated)
English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

9. Financial instruments (Continued)

(1) Financial Assets (Continued)

(b) Recognition and measurement (Continued)

Gain or loss arising from change in the fair value of financial assets at fair value through profit or loss is recognised in profit or loss. Interests and cash dividends received during the period in which such financial assets are held, as well as the gains or losses arising from disposal of these assets are recognised in profit or loss for the current period.

Accumulated fair value adjustments of available-for-sale financial assets are recognised in equity except impairment and exchange gains and losses of foreign currency financial assets. When available-for-sale financial assets are disrecognised, the accumulated fair value adjustments recognised in equity are included in the income statement. Interest on available-for-sale securities calculated using the effective interest method and cash dividends on available-for-sale equity instruments when the group's right to receive payments is established are recognised in the income statement as part of other income.

(c) Impairment of financial assets

The Group assesses the carrying amounts of financial assets other than those at fair value through profit or loss at each balance sheet date. If there is objective evidence that a financial asset is impaired, the Group determines the amount of impairment loss.

Objective evidence indicating a financial asset is impaired represents matters actually happen subsequently to the initial recognition of the financial assets and exert influences the financial assets' estimated future cash flows which can be reliably measured by the Group.

Evidence of held-to-maturity equity instrument is impaired comprises a significant or prolonged decline in the fair value of an investment in an equity instrument below its cost. The Group assesses all available-for-sale financial assets on an individual basis at each balance sheet date. Impairment loss should be recognised if the fair value of an equity instrument has is than 50% (50% inclusive) of its initial investment cost or in the case that the fair value has been less than the initial investment cost for more than one year (one year inclusive). The Group will consider other relevant factors, such as the price volatility, to determine whether an impairment loss should be recognised for the equity instrument if the decline in the fair value of an equity instrument is more than 20% (20% inclusive) but less than 50% of its initial investment cost. The initial investment cost of held-to-maturity equity instrument is calculated using the weighted average method.

When an impairment loss on a financial asset carried at amortised cost has occurred, the amount of loss is measured at the difference between the asset's carrying amount and the present value of its estimated future cash flows (excluding future credit losses that have not been incurred). If there is objective evidence that the value of the financial asset recovered and the recovery is related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed and the amount of reversal is recognised in profit or loss.

Notes to the Financial Statements

For the period ended 30 June 2016

(All amounts in RMB'000 unless otherwise stated)

English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

9. Financial instruments (Continued)

(1) Financial Assets (Continued)

(c) Impairment of financial assets (Continued)

When an available-for-sale financial asset is impaired, the cumulative loss arising from decline in fair value that has been recognised directly in equity is reclassified to profit or loss. If, after an impairment loss has been recognised on an available-for-sale debt instrument, the fair value of the debt instrument increases in a subsequent period and the increase can be objectively related to an event occurring after the impairment loss was recognised, the impairment loss is reversed through profit or loss. An impairment loss recognised for an investment in an equity instrument classified as available-for-sale is reversed through equity.

When an impairment loss on an available-for-sale financial asset has occurred, the amount of loss is measured at the difference between the asset's carrying amount and the present value of its estimated future cash flows determined according to the market yield of similar financial assets and recognised in profit or loss. Once the above asset impairment loss is recognised, it will not be reversed in the subsequent periods.

Finance lease receivables are regarded as ordinary receivables when derecognised and impaired.

(d) Derecognition of financial assets

A financial assets is derecognised when one of the below criteria is met:

- the contractual rights to receive the cash flows from the financial asset expire;
- the financial asset has been transferred and the Group transfers substantially all the risks and rewards of ownership of the financial asset to the transferee; or
- the financial asset has been transferred and the Group has not retained control of the financial asset, although the Group neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount and the consideration received and the cumulative changes in fair value that had been recognised directly in equity, is recognised in profit or loss.

Notes to the Financial Statements

For the period ended 30 June 2016
(All amounts in RMB'000 unless otherwise stated)
English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

9. Financial instruments (Continued)

(2) Financial liabilities

Financial liabilities are classified into the following categories at initial recognition: financial liabilities at fair value through profit or loss and other financial liabilities. The financial liabilities of the Group are mainly other financial liabilities, including payables, borrowings and debentures payable.

Payables, including accounts payable and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Borrowings and debentures payable are recognised initially at fair value, net of transaction costs incurred and subsequently measured at amortised cost using the effective interest method.

Other financial liabilities with maturities no more than one year are classified as current liabilities. Other financial liabilities with maturities over one year but are due within one year (inclusive) at the balance sheet date are classified as the current portion of non-current liabilities. Others are classified as non-current liabilities.

A financial liability is derecognised or partly derecognised when the current obligation is discharged or partly discharged. The difference between the carrying amount of the financial liability or the derecognised part of the financial liability and the consideration paid is recognised in profit or loss.

(3) Determination of fair value

The fair value of a financial instrument that is traded in an active market is determined at the quoted price in the active market. The fair value of a financial instrument that is not traded in an active market is determined by using an appropriate valuation technique that is applicable to current circumstances and supported by sufficient available data and other information. Valuation techniques mainly include market approach and income approach. When applying valuation techniques, inputs used by market participants in the transactions of the assets or liabilities with similar characteristics would be used and observable inputs would be given priority to the extent possible. Unobservable inputs would only be used when it is impossible or impracticable to obtain relevant observable inputs.

(4) Equity instrument

An equity instrument is a contract that proves the ownership interest of the assets after deducting all liabilities in the Group.

The consideration received from the issuance of equity instruments net of transaction costs is recognised in shareholders' equity.

Consideration and transaction costs paid by the Group for repurchasing self-issued equity instruments are deducted from shareholders' equity.

Notes to the Financial Statements

For the period ended 30 June 2016

(All amounts in RMB'000 unless otherwise stated)

English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

10. Receivables

Receivables comprise of accounts receivable and other receivables. Accounts receivable arising from sale of goods or rendering of services are initially recognised at fair value of the contractual payments from the buyers or service recipients.

Receivables are assessed for impairment both on an individual basis and on a collective group basis.

Where impairment is assessed on an individual basis, an impairment loss in respect of a receivable is calculated as the excess of its carrying amount over the present value of the estimated future cash flows (exclusive of future credit losses that have not been incurred) discounted at the original effective interest rate. All impairment losses are recognised in profit or loss.

The assessment is made collectively where receivables share similar credit risk characteristics (including those having not been individually assessed as impaired), based on their historical loss experiences, and adjusted by the observable figures reflecting present economic conditions.

If, after an impairment loss has been recognised on receivables, there is objective evidences of a recovery in value of the financial asset which can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss. A reversal of an impairment loss will not result in the asset's carrying amount exceeding that which would have been determined had no impairment loss been recognised in prior years.

(1) Receivables that are individually significant and impairment provided on an individual basis

Criteria of provision for receivable that are individually significant and impairment provided on an individual basis.

Individually significant receivables are the receivables with the individual amount over RMB10 million (inclusive) or accounting to 5% or more of the total receivables.

Method of provision for receivable that are individually significant and impairment provided on an individual basis.

An impairment loss is calculated as the excess of its carrying amount over the present value of the estimated future cash flows (exclusive of future credit losses that have not been incurred) discounted at the original effective interest rate.

(2) Receivable that are individually insignificant but impairment provided on an individual basis

Criteria of provision for receivables that are individually insignificant but impairment provided on an individual basis.

Within the receivables whose amounts are individually insignificant, impairment is assessed on an individual basis for the overdue receivables unpaid after collection efforts or with unique characteristics.

Method of provision for receivable that are individually insignificant but impairment provided on an individual basis.

An impairment loss is calculated as the excess of its carrying amount over the present value of the estimated future cash flows (exclusive of future credit losses that have not been incurred) discounted at the original effective interest rate.

Notes to the Financial Statements

For the period ended 30 June 2016
(All amounts in RMB'000 unless otherwise stated)
English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

10. Receivables (Continued)

(3) Receivables that are assessed for impairment on a collective group basis

For receivables that have not been individually assessed as impaired in (1) and (2), further assessment is made collectively on a group basis with receivables that share similar credit risk characteristics.

Determination method of the group based on credit risk characteristics

Accounts receivable are divided into seven groups of containers, vehicles, energy, chemistry and liquid food equipment, offshore engineering, airport facilities, other business and amounts due from related parties, land lease prepayments and operating deposits according to the industry and business nature of customers and the characteristics of the receivables. As for Offshore engineering groups, the relevant receivables within credit period have lower credit risk after the grouping based on credit risk characteristics according to individual credit risk assessment and historical data. As to other groups like due from related parties, land lease prepayments operating deposits, and etc, if the credit risk is assessed low after grouping based on the assessment on credit risk and their historical loss experience, no impairment loss is recognised for those groups.

Group 1	Containers
Group 2	Road transportation vehicles
Group 3	Energy, chemical and liquid food equipment
Group 4	Airport facilities
Group 5	Logistics services
Group 6	Other business

Methods of provision for receivables assessed on a collective group basis (based on an ageing analysis, a percentage of the total balance and others).

Containers	Provision is determined based on an aging analysis (Overdue aging)
Road transportation vehicles	Provision is determined based on an aging analysis (Overdue aging)
Energy, chemical and liquid food equipment	Provision is determined based on an aging analysis (Overdue aging)
Airport facilities	Provision is determined based on an aging analysis (Overdue aging)
Logistics services	Provision is determined based on an aging analysis (Overdue aging)
Heavy truck	Provision is determined based on an aging analysis (Overdue aging)
Other business	Provision is determined based on an aging analysis (Overdue aging)
Finance lease receivables	Provision is determined based on model analysis

Notes to the Financial Statements

For the period ended 30 June 2016

(All amounts in RMB'000 unless otherwise stated)

English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

10. RECEIVABLES (CONTINUED)

(3) Receivables that are assessed for impairment on a collective group basis (Continued)

For the above groups, provision is made based on their respective ageing analysis follows:

Ageing	Provision ratio	
	Group 1,2,4,5,6	Group 3
Within 1 year (inclusive)	5%	0%-5%
1 to 2 years (inclusive)	30%	30%
Over 2 years	100%	100%

(4) When the Group transfers the accounts receivable to the financial institutions without recourse, the difference between the proceeds received from the transaction and their carrying amounts and the related taxes is recognised in profit or loss for the current period.

11. Inventories

(1) Classification

Inventories include raw materials, work in progress, semi-finished goods, finished goods and reusable materials. Reusable materials include low-value consumables, packaging materials and other materials, which can be used repeatedly but do not meet the definition of fixed assets.

(2) Cost of inventories

Cost of inventories is calculated using the weighted average method.

(3) The underlying factors in the determination of net realisable values of inventories and basis of provision for decline in value of inventories

Inventories are initially measured at cost. Cost of inventories comprises all costs of purchase, costs of conversion and other expenditures incurred in bringing the inventories to their present location and condition. Borrowing costs directly related to the production of qualifying inventories are also included in the cost of inventories (see Note II.16). In addition to the purchasing cost of raw materials, work in progress and finished goods include direct labour costs and an appropriate allocation of production overheads.

Notes to the Financial Statements

For the period ended 30 June 2016
(All amounts in RMB'000 unless otherwise stated)
English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

11. Inventories (Continued)

(3) The underlying factors in the determination of net realisable values of inventories and basis of provision for decline in value of inventories (Continued)

At the balance sheet date, inventories are carried at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the normal course of business less the estimated costs to completion and the estimated expenses and related taxes necessary to make the sale. The net realisable value of materials held for use in the production of inventories is measured based on the net realisable value of the finished goods in which they will be incorporated. The net realisable value of the quantity of inventory held to satisfy sales or service contracts is based on the contract price. If the quantities of inventories specified in sales contracts are less than the quantities held by the Group, the net realisable value of the excess portion of inventories shall be based on general selling prices.

Any excess of the cost over the net realisable value of each class of inventories is recognised in profit or loss as a provision for diminution in the value of inventories.

(4) Inventory system

The Group maintains a perpetual inventory system.

(5) Amortisation of reusable material including low-value consumables and packaging material

Reusable materials including low-value consumables and packaging materials are amortised in full when received for use. The amounts of the amortisation are included in the cost of the related assets or profit or loss.

12. Long-term equity investments

Long-term equity investments comprise the Company's long-term equity investments in its subsidiaries and the Group's long-term equity investments in its joint ventures and associates.

Subsidiaries are the investees over which the Company is able to exercise control. Joint ventures are the investees over which the Group is able to exercise joint control together with other ventures and the Group enjoys the rights only on the net assets of investees. Associates are the investees that the Group has significant influence on their financial and operating policies.

Investments in subsidiaries are presented in the Company's financial statements using the cost method, and are adjusted for preparing the consolidated financial statements using the equity method. Investments in joint ventures and associates are accounted for using the equity method.

Notes to the Financial Statements

For the period ended 30 June 2016

(All amounts in RMB'000 unless otherwise stated)

English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

12. Long-term equity investments (Continued)

(1) Determination of investment cost

For long-term equity investments acquired through a business combination: for long-term equity investments acquired through a business combination involving enterprises under common control, the investment cost shall be the absorbing party's share of the carrying amount of owners' equity of the party being absorbed at the combination date; for long-term equity investment acquired through a business combination involving enterprises not under common control, the investment cost shall be the combination cost.

For long-term equity investments acquired not through a business combination: for long-term equity investment acquired by payment in cash, the initial investment cost shall be the purchase price actually paid; for long-term equity investments acquired by issuing equity securities, the initial investment cost shall be the fair value of the equity securities issued.

(2) Subsequent measurement

For long-term equity investments accounted for using the cost method, they are measured at the initial investment costs, and cash dividends or profit distribution declared by the investees are recognised as investment income in profit or loss.

For long-term equity investments accounted for using the equity method, where the initial investment cost of a long-term equity investment exceeds the Group's share of the fair value of the investee's identifiable net assets at the acquisition date, the long-term equity investment is measured at the initial investment cost; where the initial investment cost is less than the Group's share of the fair value of the investee's identifiable net assets at the acquisition date, the difference is included in profit or loss and the cost of the long-term equity investment is adjusted upwards accordingly.

For long-term equity investments accounted for using the equity method, the Group recognises the investment income according to its share of net profit or loss of the investee. If the accounting policies and the accounting periods are inconsistent between the Company and investees, the financial statements of investees are adjusted in accordance with the accounting policies and accounting period of the Company. The Group discontinues recognising its share of net losses of an investee after the carrying amount of the long-term equity investment together with any long-term interests that, in substance, form part of the investor's net investment in the investee are reduced to zero. However, if the Group has obligations for additional losses and the criteria with respect to recognition of provisions under the accounting standards on contingencies are satisfied, the Group continues recognising the investment losses and the provisions. For changes in owners' equity of the investee other than those arising from its net profit or loss, the Group records its proportionate share directly into capital surplus, provided that the Group's proportion of shareholding in the investee remains unchanged. The carrying amount of the investment is reduced by the Group's share of the profit distribution or cash dividends declared by an investee. The unrealised profits or losses arising from the intra-group transactions amongst the Group and its investees are eliminated in proportion to the Group's equity interest in the investees, and then based on which the investment gains or losses are recognised. For the loss on the intra-group transaction amongst the Group and its investees attributable to asset impairment, any unrealised loss is not eliminated.

Notes to the Financial Statements

For the period ended 30 June 2016
(All amounts in RMB'000 unless otherwise stated)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

12. Long-term equity investments (Continued)

(3) Basis for determining the existence of joint control or significant influence over an investee

Control is the power over the investee to enjoy variable returns by participating in related activities of the investee and the ability to affect the return amount by executing the power over the investee.

Joint control is the sharing of control over an arrangement according to related agreement, and exists only when the decisions relating to the activity of the arrangement require the unanimous consent of the parties sharing control.

Notes to the Financial Statements

For the period ended 30 June 2016

(All amounts in RMB'000 unless otherwise stated)

English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

13. Investment properties

Investment properties are properties held either to earn rental income or for capital appreciation or for both. Investment properties are accounted for using the cost model and stated in the balance sheet at cost less accumulated depreciation, amortisation and impairment losses. Subsequent expenditures incurred in relation to an investment property are included in the cost of the investment property when it is probable that the associated economic benefits will flow to the Group and their costs can be reliably measured; otherwise, the expenditures are recognised in profit or loss in the period in which they are incurred. An investment property is depreciated or amortised, less its estimated residual value, using the straight line method over its estimated useful life, unless the investment properties are classified as held for sale (see Note II.28). For the method of impairment testing and measuring, refer to Note II.20.

The useful lives, residual value rate and depreciation/amortisation rate of each class of investment properties are as follows:

	Useful life (years)	Residual value rate (%)	Depreciation / Amortisation rate (%)
Land use rights	29-50	–	2-3.4%
Plant and buildings	20-30	10%	3-4.5%

When an investment property is transferred to owner-occupied properties, it is reclassified as fixed asset or intangible asset at the date of the transfer. When an owner-occupied property is transferred out for earning rentals or for capital appreciation, the fixed asset or intangible asset is reclassified as investment properties at its carrying amount at the date of the transfer.

The investment property's estimated useful life, net residual value and depreciation (amortisation) method applied are reviewed and adjusted as appropriate at each year-end.

An investment property is derecognised on disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposal. The net amount of proceeds from sale, transfer, retirement or damage of an investment property after its carrying amount and related taxes and expenses is recognised in profit or loss for the current period.

Notes to the Financial Statements

For the period ended 30 June 2016
(All amounts in RMB'000 unless otherwise stated)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

14. Fixed assets

(1) Recognition

Fixed assets represent the tangible assets held by the Group for use in the production of goods or supply of services, for rental to others or for operation and administrative purposes with useful lives over one year.

The cost of a purchased fixed asset comprises the purchase price, related taxes, and any directly attributable expenditure for bringing the asset to working condition for its intended use. The cost of self-constructed assets is measured in accordance with the policy set out in Note II.15.

Where parts of an item of fixed asset have different useful lives or provide benefits to the Group in different patterns thus necessitating use of different depreciation rates or methods, each part is recognised as a separate fixed asset.

The subsequent costs including the cost of replacing part of an item of fixed assets are recognised in the carrying amount of the item if the to recognise fixed assets criteria are satisfied, and the carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of fixed assets are recognised in profit or loss as incurred.

Fixed assets are stated in the balance sheet at cost less accumulated depreciation and impairment losses.

Notes to the Financial Statements

For the period ended 30 June 2016

(All amounts in RMB'000 unless otherwise stated)

English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

14. Fixed assets (Continued)

(2) Depreciation

Fixed assets are depreciated using the straight-line method to allocate the cost of the assets to their estimated residual values over their estimated useful lives, unless the fixed asset is classified as held for sale (see Note II.28). For the fixed assets that have been provided for impairment loss, the related depreciation charge is prospectively determined based upon the adjusted carrying amounts over their remaining useful lives. The estimated useful lives, residual values and depreciation rates of each class of fixed assets are as follows:

Carrying amount	Residual value (%)	Depreciation rate (%)	Depreciation rate (%)
Plants and buildings	20-30	10%	3-4.5%
Machinery and equipment	10-12	10%	7.5-9%
Office and other equipment	3-5	10%	18-30%
Motor vehicles	5	10%	18%
Dock, wharf	50	10%	1.8%
Offshore engineering equipment	15-30	10%	3-6%

Useful lives, residual value and depreciation methods are reviewed at least at each year-end.

(3) For the method of impairment testing and measuring, refer to Note II.20.

(4) Basis for identification of fixed assets held under finance leases and related measurement

For criteria of recognition and method of measuring for fixed assets under a finance lease, refer to Note II 27(3).

(5) Disposal

A fixed asset is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The amount of proceeds from disposal on sale, transfer, retirement or damage of a fixed asset net of its carrying amount and related taxes and expenses is recognised in profit or loss for the current period.

Notes to the Financial Statements

For the period ended 30 June 2016
(All amounts in RMB'000 unless otherwise stated)
English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

15. Construction in progress

Construction in progress is measured at actual cost. The cost of self-constructed assets includes the cost of materials, direct labour, capitalised borrowing costs (see Note II.16), and any other costs directly attributable to bringing the asset to working condition for its intended use.

A self-constructed asset is included in construction in progress before it is transferred to fixed asset when it is ready for its intended use. No depreciation is provided against construction in progress. Construction in progress is stated in the balance sheet at cost less impairment losses (see Note II.20).

16. Borrowing costs

Borrowing costs incurred directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of the asset.

Except for the above, other borrowing costs are recognised as financial expenses in the income statement when incurred.

During the capitalisation period, the amount of interest (including amortisation of any discount or premium on borrowing) to be capitalised in each accounting period is determined as follows:

- Where funds are borrowed specifically for the acquisition, construction or production of a qualifying asset, the amount of interest to be capitalised is the interest expense calculated using effective interest rates during the period less any interest income earned from depositing the borrowed funds or any investment income on the temporary investment of those funds before being used on the asset.
- Where funds are borrowed generally and used for the acquisition, construction or production of a qualifying asset, the amount of interest to be capitalised on such borrowings is determined by applying a capitalisation rate to the weighted average of the excess amounts of cumulative expenditures on the asset over the above amounts of specific borrowings. The capitalisation rate is the weighted average of the interest rates applicable to the general-purpose borrowings.

The effective interest rate is determined as the rate that exactly discounts estimated future cash flow through the expected life of the borrowing or, when appropriate, a shorter period to the initially recognised amount of the borrowings.

During the capitalisation period, exchange differences related to the principal and interest on a specific-purpose borrowing denominated in foreign currency are capitalised as part of the cost of the qualifying asset. The exchange differences related to the principal and interest on foreign currency borrowings other than a specific-purpose borrowing are recognised as a financial expense in the period in which they are incurred.

Notes to the Financial Statements

For the period ended 30 June 2016

(All amounts in RMB'000 unless otherwise stated)

English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

16. Borrowing costs (Continued)

The capitalisation period is the period from the date of commencement of capitalisation of borrowing costs to the date of cessation of capitalisation, excluding any period over which capitalisation is suspended. Capitalisation of borrowing costs commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities of acquisition, construction or production that are necessary to prepare the asset for its intended use or sale are in progress, and ceases when the assets become ready for their intended use or sale. Capitalisation of borrowing costs is suspended when the acquisition, construction or production activities are interrupted abnormally and the interruption lasts over three months.

17. Intangible assets

Intangible assets are stated in the balance sheet at cost less accumulated amortisation (where the estimated useful life is finite) and impairment losses (see Note II.20). For an intangible asset with finite useful life, its cost less residual value and impairment loss is amortised on the straight-line method or other more appropriate methods that can reflect the pattern in which the asset's economic benefits are expected to be realised over its estimated useful life, unless the intangible asset is classified as held for sale (see Note II.28).

The respective amortisation periods for such intangible assets are as follows:

	Amortisation period (years)
Land use rights	20-50
Maritime space use rights	40-50
Technological know-how and trademarks	5-10
Timber concession rights	20
Customer relationships	3-8
Customer contracts	3-4
Franchise rights	10-18

For an intangible asset with a finite useful life, review of its useful life and amortisation method is performed at each year-end, with adjustment made as appropriate.

An intangible asset is regarded as having an indefinite useful life and is not amortised when there is no foreseeable limit to the period over which the asset is expected to generate economic benefits for the Group. At balance sheet date, an impairment test will be conducted.

Notes to the Financial Statements

For the period ended 30 June 2016
(All amounts in RMB'000 unless otherwise stated)
English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

17. Intangible assets (Continued)

Expenditures on an internal research and development project are classified into expenditures on the research phase and expenditures on the development phase. Research is original and planned investigation undertaken with the prospect of gaining new scientific or technical knowledge and understanding. Development is the application of research findings or other knowledge to a plan or design for the production of new or substantially improved materials, devices, products or processes before the start of commercial production or use.

The expenditure on an internal research and development project is classified into expenditure on the research phase and expenditure on the development phase based on its nature and whether there is material uncertainty that the research and development activities can form an intangible asset at end of the project.

Expenditure on the research phase, such as expenditure on planned research, assessment and selection for manufacturing technique, is recognised in profit or loss in the period in which it is incurred. Before mass production, expenditure on the development phase, such as expenditure on design and test for finalized application, is capitalised only if all of the following conditions are satisfied:

- it is technically feasible to complete the intangible asset so that it will be available for use or sale;
- management intends to complete the intangible asset, and to use or sell it;
- it can be demonstrated how the intangible asset will generate economic benefits;
- there are adequate technical, financial and other resources to complete the development and the ability to use or sell the intangible asset; and
- the expenditure attributable to the intangible asset during its development phase can be reliably measured.

Other development expenditures that do not meet the conditions above are recognised in profit or loss in the period in which they are incurred. Development costs previously recognised as expenses are not recognised as an asset in a subsequent period. Capitalised expenditure on the development phase is presented as development costs in the balance sheet and transferred to intangible assets at the date that the asset is ready for its intended use.

18. Goodwill

Goodwill represents the excess of cost of acquisition over the acquirer's interest in the fair value of the identifiable net assets of the acquiree under the business combination involving entities not under common control.

Goodwill is not amortised and is stated at cost less accumulated impairment losses (see Note II.20). On disposal of an asset group or combination of asset groups, any attributable amount of purchased goodwill is written off and included in the calculation of the profit or loss on disposal.

Notes to the Financial Statements

For the period ended 30 June 2016

(All amounts in RMB'000 unless otherwise stated)

English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

19. Long-term prepaid expenses

Long-term prepaid expenses are amortised on a straight-line method within the beneficial period.

The amortization periods for expensed are as follows:

Item	Amortization period (years)
Rental	2-10
Others	5-10

20. Impairment of long-term assets

Fixed assets, construction in progress, intangible assets with finite useful lives, investment properties measured using the cost model and long-term equity investments in subsidiaries, joint ventures and associates are tested for impairment if there is any indication that the assets may be impaired at the balance sheet date. If the result of the impairment test indicates that the recoverable amount of an asset is less than its carrying amount, a provision for impairment and an impairment loss are recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and the present value of the future cash flows expected to be derived from the asset. Provision for asset impairment is determined and recognised on the individual asset basis. If it is not possible to estimate the recoverable amount of an individual asset, the recoverable amount of a group of assets to which the asset belongs is determined. A group of assets is the smallest group of assets that is able to generate independent cash inflows.

Goodwill that is separately presented in the financial statements is tested at least annually for impairment, irrespective of whether there is any indication that it may be impaired. In conducting the test, the carrying value of goodwill is allocated to the related asset groups or combination of asset groups which are expected to benefit from the synergies of the business combination. If the result of the test indicates that the recoverable amount of an asset group or combination of asset groups, including the allocated goodwill, is lower than its carrying amount, the corresponding impairment loss is recognised. The impairment loss is first deducted from the carrying amount of goodwill that is allocated to the asset group or combination of asset groups, and then deducted from the carrying amounts of other assets within the asset groups or combination of asset groups in proportion to the carrying amounts of assets other than goodwill.

Once an impairment loss is recognised, it is not reversed in a subsequent period.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

21. Provisions and contingent liabilities

Provisions for product warranties, onerous contracts etc. are recognised when the Group has a present obligation, it is probable that an outflow of economic benefits will be required to settle the obligation, and the amount of the obligation can be measured reliably.

A provision is initially measured at the best estimate of the expenditure required to settle the related present obligation. Factors surrounding a contingency, such as the risks, uncertainties and the time value of money, are taken into account as a whole in reaching the best estimate of a provision. Where the effect of the time value of money is material, the best estimate is determined by discounting the related future cash outflows. The increase in the discounted amount of the provision arising from passage of time is recognised as interest expense.

The carrying amount of provisions is reviewed at each balance sheet date and adjusted to reflect the current best estimate.

In terms of a possible obligation resulting from a past transaction or event, whose existence will only be confirmed by the occurrence or non-occurrence of uncertain future events or a present obligation resulting from a past transaction or event, where it is not probable that the settlement of the above obligation will cause an outflow of economic benefits, or the amount of the outflow cannot be estimated reliably, the possible or present obligation is disclosed as a contingent liability.

22. Share-based payments

(1) Classification

Share-based payment transactions in the Group are classified as equity-settled share-based payments and cash-settled share-based payments.

(2) Method to determine the fair value of equity instruments

Fair value of stock option is estimated based on binomial lattice model. Contract term of the stock option is used as the input variable of this model. And the binomial lattice model includes estimation of early execution of the option. The following factors are taken into account when using the binomial lattice model: (1) exercise price of the option; (2) vesting period; (3) current price of basic stocks; (4) expected fluctuation of stocks; (5) expected dividends of stocks; (6) risk-free rate within the option term.

Notes to the Financial Statements

For the period ended 30 June 2016

(All amounts in RMB'000 unless otherwise stated)

English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

22. Share-based payments (Continued)

(3) Basis of the best estimate of the number of equity instruments expected to vest

At each balance sheet date during the vesting period, the Group makes the best estimation according to the latest information of the number of employees who are granted to vest and revises the number of equity instruments expected to vest. On vesting date, the estimate shall be equal to the number of equity instruments that ultimately vested.

(4) Accounting treatment for share-based payment

(a) *Equity-settled share-based payments*

Where the Group uses shares or other equity instruments as consideration for services received from the employees, the payment is measured at the fair value of the equity instruments granted to the employees at the grant date. If the equity instruments granted to employees vest immediately, the fair value of the equity instruments granted is, on grant date, recognised as relevant cost or expenses with a corresponding increase in capital reserve. If the equity instruments granted to employees do not vest until the completion of services for a vesting period, or until the achievement of a specified performance condition, the Group, at each balance sheet date during the vesting period, makes the best estimation according to the latest information of the number of employees who are granted to vest and revises the number of equity instruments expected to vest. Based on the best estimation, the Group recognises the services received for the current period as related costs or expenses, with a corresponding increase in capital reserve, at an amount equal to the fair value of the equity instruments at the grant date.

(b) *Cash-settled share-based payments*

Where the Group receives services from employees by incurring a liability to deliver cash or other assets for amounts that are determined based on the price of shares or other equity instruments, the service received from employees is measured at the fair value of the liability incurred. If the rights under a cash-settled share-based payment do not vest until the completion of services for a vesting period, or until the achievement of a specified performance condition, the Group, at each balance sheet date during the vesting period, recognises the services received for the current period as related costs or expenses, with a corresponding increase in liability, at an amount equal to the fair value of the liability based on the best estimate of the outcome of vesting.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

23. Revenue recognition

Revenue is the gross inflow of economic benefit in the periods arising in the course of the Group's ordinary activities when the inflows result in increase in shareholders' equity, other than increase relating to contributions from shareholders. Revenue is recognised in profit or loss when it is probable that the economic benefits will flow to the Group, the revenue and costs can be measured reliably and the following respective conditions are met.

(1) Sale of goods

Revenue from sale of goods is recognised when all of the general conditions stated above and following conditions are satisfied:

- (a) The significant risks and rewards of ownership of goods have been transferred to the buyer;
- (b) The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold. Revenue from the sale of goods is measured at the fair value of the considerations received or receivable under the sales contract or agreement.

a. Containers and airport facilities sales revenue

The Group recognises revenue after receive acceptance certificates from customers.

b. Road transportation vehicles and heavy truck sales revenue

Sales of road transportation vehicles are divided into sales to domestic customers and sales to overseas customers. As to sales to domestic customers, the Group recognises revenue after customers pick up and accept the vehicles. As to sales to overseas customers, the Group recognises revenue after vehicles are loaded to specified ship in specific port assigned by the customer pursuant to contracts.

c. Real estate sales revenue

The Group recognises revenue when the purchase and sell agreement is performed. When the property is sold in advance before completion, the revenue is recognised only when the construction is completed and delivered to the buyer. The deposits and installment received before revenue recognition are regarded as advance from customers.

Notes to the Financial Statements

For the period ended 30 June 2016

(All amounts in RMB'000 unless otherwise stated)

English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

23. Revenue recognition (Continued)

(2) Revenue from construction contracts

Where the outcome of a construction contract can be estimated reliably, contract revenue and contract expenses associated with the construction contract are recognised at the balance sheet date using the percentage of completion method.

The stage of completion of a contract is determined based on completion of a physical proportion of the contract work.

When the outcome of a construction contract cannot be estimated reliably:

- (a) If the contract costs can be recovered, revenue is recognised to the extent of contract costs incurred that can be recovered, and the contract costs are recognised as contract expenses when incurred;
- (b) If the contract costs cannot be recovered, the contract costs are recognised as contract expenses immediately when incurred, and no contract revenue is recognised.

Construction contract revenue includes initial revenue stipulated by contract and increased amount generated by contract alteration.

Increased amount cannot be recognised as contract revenue unless the following contract alteration terms are all satisfied:

- (c) Client accepts and confirms the increased amount generated by contract alteration;
- (d) Increased amount can be reliably measured.

Contract anticipated loss is recognised when estimated total construction contract cost exceeds contract revenue. Provision should be made for contract anticipated loss and charged into profit and losses for the current period.

Notes to the Financial Statements

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

23. Revenue recognition (Continued)

(3) Rendering of services

Revenue from rendering of services is measured at the fair value of the considerations received or receivable under the contract or agreement.

At the balance sheet date, where outcome of a transaction involving the rendering of services can be estimated reliably, revenue from the rendering of services is recognised by reference to the stage of completion of the transaction based on the progress of work performed.

Where outcome of rendering of services cannot be estimated reliably, if the costs incurred are expected to be recoverable, revenues are recognised to the extent that the costs incurred that are expected to be recoverable, and an equivalent amount is charged to profit or loss as service cost; if the costs incurred are not expected to be recoverable, the costs incurred are recognised in profit or loss and no service revenue is recognised.

For freight agencies, revenues are recognised at the ship departure date (export) or the arrival date (import). As to land freight agencies, revenues are recognised when goods have arrived at the specified location. For shipping agency: revenues are recognised at the day that ship departures.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

24. Employee benefits

Employee benefits represent all kinds of allowances and compensations paid by the Group for services rendered by employees or for termination of employment relationship, which mainly include short-term wages, pension benefits and termination of employment benefits.

(1) Short-term wages

Short-term wages include wages or salaries, bonuses, allowances and subsidies, staff welfare, medical insurance, work injury insurance, maternity insurance, housing funds, labour union funds, employee education funds and short term paid absence and etc. Actual short-term wages are recognised as liabilities in the periods when the employees render services and are charged into profit or loss or capitalised in costs of related assets. The non-monetary welfare is measured at fair value.

(2) Pension benefits

During the reporting period, the Group's pension benefits are basic pension insurance and unemployment insurance which are all defined contribution plans.

– Basic pension insurance

The Group's employees participated in the basic social pension insurance organised and implemented by local labour and social security bureau. The Group paid the basic pension issuance expenses monthly to designated insurance companies for its employees according to the basis amounts and rates determined by the local regulations. After retirement, local labour and social security bureau is responsible for paying the pension benefit to the retired employees. The amounts of pension insurance payable calculated according to the above regulations are recognised as liabilities during the periods when the employees render services and are charged to profit or loss or capitalised in costs of related assets.

(3) Enterprise annuities plan

The Group provides compensation for the termination of employment relationship before the expiry of employment contracts or compensation to encourage employees' voluntary layoffs, which is recognised as a liability and charged to profit or loss on the earlier one when the Group is unable to unilaterally withdraw the plan on the termination of employment relationship or the layoff proposal and costs and expenses in relation to the payment of compensation to the termination of employment relationship are recognised.

The Enterprise annuities plan with payment within one year at the balance sheet date are classified as current liabilities.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

27. Operating and finance leases (Continued)

(2) Assets leased out under operating leases

Fixed assets leased out under operating leases, except for investment properties (see Note II.13) are depreciated in accordance with the Group's depreciation policies described in Note II.14(2). Impairment losses are provided for in accordance with the accounting policy described in Note II.20. Other leased out assets under operating leases are amortised using the straight-line method. Income derived from operating leases is recognised in the income statement using the straight-line method over the lease term. If initial direct costs incurred in respect of the assets leased out are material, the costs are initially capitalised and subsequently amortised in profit or loss over the lease term on the same basis as the lease income. Otherwise, the costs are charged to profit or loss immediately.

(3) Assets acquired under finance leases

When the Group acquires an asset under a finance lease, the asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments, each determined at the inception of the lease. At the commencement of the lease term, the minimum lease payments are recorded as long-term payables. The difference between the value of the leased assets and the minimum lease payments is recognised as unrecognised finance charges. Initial direct costs that are attributable to a finance lease incurred by the Group are added to the amounts recognised for the leased asset. Depreciation and impairment losses are accounted for in accordance with the accounting policies described in Notes II.14(2) and II.20, respectively.

If there is a reasonable certainty that the Group will obtain ownership of a leased asset at the end of the lease term, the leased asset is depreciated over its estimated useful life. Otherwise, the leased asset is depreciated over the shorter of the lease term and its estimated useful life.

Unrecognised finance charge under finance lease is amortised using an effective interest method over the lease term. The amortisation is accounted for in accordance with principles of borrowing costs (see Note II.16).

At the balance sheet date, long-term payables arising from finance leases, net of the unrecognised finance charges, are presented as long-term payables or non-current liabilities due within one year, respectively, in the balance sheet.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

28. Assets held for sale and discontinued operation (Continued)

Assets and liabilities of a non-current asset or disposal group which is classified as held for sale are classified as current assets and current liabilities, which are separately presented in the balance sheet.

A discontinued operation is a component which has been disposed or classified as held for sale of the group's business and the operations and financial reporting of the discontinued operation can be clearly distinguished from the rest of the group and can meet one of the following criteria:

- (a) This component of the business represents a separate major line of business or geographic area of operations;
- (b) This component of the business is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations;
- (c) This component of the business is a subsidiary acquired exclusively with a view to resale.

29. Hedge accounting

Hedge accounting is a method which recognises the offsetting effects of fair value and cash flow of the hedging instruments and the hedged items on current profit or loss in the same accounting period(s).

Hedged items are the items that expose the Group to risks of changes in fair value or future cash flows and that are designated as being hedged. The Group's hedged item include a forecast transaction that is settled with a fixed amount of foreign currency and expose the Group to foreign currency risk.

A hedging instrument is a designated derivative whose changes in fair value or cash flows are expected to offset changes in the fair value or cash flows of the hedged item. For a hedge of foreign currency risk, a non-derivative financial asset or non-derivative financial liability may also be used as a hedging instrument.

The hedge is assessed by the Group for effectiveness on an ongoing basis and judged whether it has been highly effective throughout the accounting periods for which the hedging relationship was designated. A hedge is regarded as highly effective if both of the following conditions are satisfied:

- at the inception and in subsequent periods, the hedge is expected to be highly effective in achieving offsetting changes in fair value or cash flows attributable to the hedged risk during the period for which the hedge is designated;
- the actual results of offsetting are within a range of 80% to 125%.

Notes to the Financial Statements

For the period ended 30 June 2016

(All amounts in RMB'000 unless otherwise stated)

English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

29. Hedge accounting (Continued)

Cash flow hedges

A cash flow hedge is a hedge of the exposure to variability in cash flows. The portion of the gain or loss on the hedging instrument that is determined to be an effective hedge is recognised directly in shareholders' equity as a separate component. That effective portion is adjusted to the lesser of the following in absolute amounts:

- the cumulative gain or loss on the hedging instrument from inception of the hedge;
- The cumulative change in present value of the expected future cash flows on the hedged item from inception of the hedge.

The portion of the gain or loss on the hedging instrument that is determined to be an ineffective hedge is recognised in profit or loss.

If a hedge of a forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability, the associated gain or loss is removed from shareholders' equity and recognised in profit or loss in the same period during which the financial asset or financial liability affects profit or loss. However, if the Group expects that all or a portion of a net loss recognised directly in shareholders' equity will not be recovered in future accounting periods, it reclassifies into profit or loss the amount that is not expected to be recovered.

If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or a financial liability, the associated gain or loss is removed from equity and recognised in profit or loss in the same period during which the financial asset or financial liability affects profit or loss. However, if the Group expects that all or a portion of a net loss recognised directly in shareholders' equity will not be recovered in future accounting periods, it reclassifies into profit or loss the amount that is not expected to be recovered.

For cash flow hedges, other than those covered by the preceding two policy statements, the associated gain or loss is removed from shareholders' equity and recognised in profit or loss in the same period or periods during which the hedged forecast transaction affects profit or loss.

When a hedging instrument expires or is sold, terminated or exercised, or the hedge no longer meets the criteria for hedge accounting, the Group will discontinue the hedge accounting treatments prospectively. In this case, the gain or loss on the hedging instrument that remains recognised directly in shareholders' equity from the period when the hedge was effective shall not be reclassified into profit or loss and is recognised in accordance with the above policy when the forecast transaction occurs. If the forecast transaction is no longer expected to occur, the gain or loss on the hedging instrument that remains recognised directly in shareholders' equity from the period when the hedge was effective shall be reclassified into profit or loss immediately.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

30. Dividend distribution

Cash dividend is recognised as a liability for the period in which the dividend is approved by the shareholders' meeting.

Dividends or distributions of profits proposed in the profit appropriation plan which will be authorised and declared after the balance sheet date, are not recognised as a liability at the balance sheet date but disclosed in the notes separately.

31. Related parties

If a party has the power to control, jointly control or exercise significant influence over another party, or vice versa, or where two or more parties are subject to common control or joint control from another party, they are considered to be related parties. Related parties may be individuals or enterprises. Enterprises with which the Company is under common control only from the State and that have no other related party relationships are not regarded as related parties of the Group. Related parties of the Group and the Company include, but are not limited to:

- (a) the Company's parent;
- (b) the Company's subsidiaries;
- (c) enterprises that are controlled by the Company's parent;
- (d) investors that have joint control or exercise significant influence over the Group;
- (e) enterprises or individuals if a party has control, joint control or exercise significant influence over the Group.

Notes to the Financial Statements

For the period ended 30 June 2016

(All amounts in RMB'000 unless otherwise stated)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

31. Related parties (Continued)

- (j) key management personnel of the Company's parent and close family members of such individuals; and
- (k) close family members of key management personnel of the Company's parent; and
- (l) other enterprises that are controlled or jointly controlled by principal individual investors, key management personnel of the Group, and close family members of such individuals.

Besides the related parties stated above determined in accordance with the requirements of CAS, the following enterprises and individuals are considered as (but not restricted to) related parties based on the disclosure requirements of Administrative Procedures on the Information Disclosures of Listed Companies issued by the CSRC:

- (m) enterprises or persons that act in concert that hold 5% or more of the Company's shares;
- (n) individuals and close family members of such individuals who directly or indirectly hold 5% or more of the Company's shares, supervisors for listed companies and their close family members;
- (o) enterprises that satisfy any of the aforesaid conditions in (a), (c) and (m) during the past 12 months or will satisfy them within the next 12 months pursuant to a relevant agreement;
- (p) individuals who satisfy any of the aforesaid conditions in (i), (j) and (n) during the past 12 months or will satisfy them within the next 12 months pursuant to a relevant agreement; and
- (q) enterprises, other than the Company and subsidiaries controlled by the Company, which are controlled directly or indirectly by an individual defined in (i), (j), (n) or (p), or in which such an individual assumes the position of a director or senior executive.

32. Segment reporting

Reportable segments are identified based on operating segments which are determined based on the structure of the Group's internal organisation, management requirements and internal reporting system. An operating segment is a component of the Group that meets the following conditions:

- It engages in business activities from which it may earn revenues and incur expenses;
- Its financial performance are regularly reviewed by the Group's management to make decisions about resource to be allocated to the segment and assess its performance;
- The Group is able to obtain its financial information regarding financial position, financial performance and cash flows, etc.

Notes to the Financial Statements

For the period ended 30 June 2016
(All amounts in RMB'000 unless otherwise stated)
English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

32. Segment reporting (Continued)

Two or more operating segments may be aggregated into a single operating segment if the segments have same or similar economic characteristics, and are similar in respect of the following aspects:

- the nature of each product and service;
- the nature of production processes;
- the type or class of customers for the products and services;
- the methods used to distribute the products or provide the services;
- the legal and regulatory impact on manufacturing of products and rendering of services.

Inter-segment revenues are measured on the basis of actual transaction price for such transactions for segment reporting, and segment accounting policies are consistent with those for the consolidated financial statements.

33. Critical accounting estimates and judgements

The preparation of financial statements requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Notes IV.18, IX and XIV contain information about the assumptions and their risk factors relating to impairment of goodwill, share-based payments and fair value of financial instruments. Other key sources of estimation uncertainty are as follows:

(1) Impairment of receivables

As described in Note II.10, receivables that are measured at amortised cost are reviewed at each balance sheet date to determine whether there is objective evidence of impairment. If any such evidence exists, impairment loss is recognised. Objective evidence of impairment includes observable data that comes to the attention of the Group about loss events such as a significant decline in the estimated future cash flow of an individual debtor or the portfolio of debtors, and significant changes in the financial condition that have an adverse effect on the debtor. If there has been a change in the factors used to determine the provision for impairment which indicates that the value of the receivables has recovered, the impairment loss recognised in prior years can be reversed.

Notes to the Financial Statements

For the period ended 30 June 2016

(All amounts in RMB'000 unless otherwise stated)

English Translation for Reference Only

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

33. Critical accounting estimates and judgements (Continued)

(2) Provision for diminution in value of inventories

As described in Note II.11, the net realisable value of inventories is under management's regular review, and as a result, provision for diminution in value of inventories is recognised for the excess of inventories' carrying amounts over their net realisable value. When making estimates of net realisable value, the Group takes into consideration the use of inventories held on hand and other information available to form the underlying assumptions, including the inventories' market prices and the Group's historical operating costs. The actual selling price, the costs of completion and the costs necessary to make the sale and relevant taxes may vary based on the changes in market conditions and product saleability, manufacturing technology and the actual use of the inventories, resulting in the changes in provision for diminution in value of inventories. The net profit or loss may then be affected in the period when the provision for diminution in value of inventories is adjusted.

(3) Impairment of long-term assets

As described in Note II.20, assets such as fixed assets, intangible assets and investment properties, excluding inventories and financial asset, are reviewed at each balance sheet date to determine whether the carrying amount exceeds the recoverable amount of the assets. If any such indication exists, an impairment loss is recognised.

The recoverable amount of an asset (asset group) is the greater of its fair value less costs to sell and its present value of expected future cash flows. Since a market price of the asset (the asset group) cannot be obtained reliably, the fair value of the asset cannot be estimated reliably. In assessing value in use, significant judgements are exercised over the asset's production, selling price, related operating expenses and discounting rate to calculate the present value. All relevant materials which can be obtained are used for estimation of the recoverable amount, including the estimation of the production, selling price and related operating expenses based on reasonable and supportable assumption.

(4) Depreciation and amortisation of assets such as fixed assets, intangible assets and investment properties

As described in Note II.13, 14 and 17, investment properties, fixed assets and intangible assets are depreciated and amortised over their useful lives after taking into account residual value. The useful lives of the assets are regularly reviewed to determine the depreciation and amortisation costs charged in each reporting period. The useful lives of the assets are determined based on historical experiences of similar assets and the estimated technical changes. If there have been significant changes in the factors used to determine the depreciation or amortisation, the rate of depreciation or amortisation is revised prospectively.

(5) Warranty provisions

As described in Note IV.34, the Group makes provisions under the warranties it gives on the sale of its products based mainly on the Group's recent claim experience. Because it is possible that the recent claim experience may not be indicative of future claims that the Group will receive in respect of past sales, a considerable level of management's judgement is required and exercised to estimate the provision. Any increase or decrease in the provision will affect profit or loss in future years.

Notes to the Financial Statements

For the period ended 30 June 2016
(All amounts in RMB'000 unless otherwise stated)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

33. Critical accounting estimates and judgements (Continued)

(6) Construction contract

As described in Note II.23, contract revenue and contract profit are recognised based on the stage of completion of a contract which is determined with reference to the proportion of the physical construction work completed to the total estimated construction work. Where a contract is completed substantially and its contract revenue and contract expenses to completion can be reliably measured, the Group estimates contract revenue and contract expenses with reference to its recent construction experience and the nature of the construction contracts. For a contract that is not completed substantially, contract revenue that should be recognised based on its stage of completion, is not recognised and disclosed in the financial statements. Therefore, at the balance sheet date, actual total contract revenue and total contract cost may be higher or lower than the estimated total contract revenue and total contract cost and any change of estimated total contract revenue and total contract cost may have financial impact on future profit or loss.

(7) Income taxes

The Group is subject to income taxes in numerous jurisdictions. There are some transactions and events for which the ultimate tax determination is uncertain during the ordinary course of business. Significant judgment is required from the Group in determining the provision for income taxes in each of these jurisdictions. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

Determining income tax provisions involves judgement on the future tax treatment of certain transactions. The Group carefully evaluates tax implications of transactions and tax provisions are set up accordingly. The tax treatment of such transactions is reconsidered periodically to take into account all changes in tax legislations. Deferred tax assets are recognised for tax losses not yet used and temporary deductible differences. As those deferred tax assets can only be recognised to the extent that it is probable that future taxable profit will be available against which the unused tax credits can be utilised, management's judgment is required to assess the probability of future taxable profits. Management's assessment is constantly reviewed and additional deferred tax assets are recognised if it becomes probable that future taxable profits will allow the deferred tax asset to be recovered.

2. Financial assets at fair value through profit or loss (Continued)

(3) The equity instruments held for trading are securities listed on the Stock Exchange of Hong Kong Limited, the Shanghai Stock Exchange and the Singapore Exchange Limited, of which the fair value is determined at the closing price the Stock Exchange of Hong Kong Limited on the last trading day of the period.

(4) Forward foreign exchange contracts

As at 30 June 2016, the Group had certain unsettled forward contracts, mainly denominated in US dollars, RMB, Japanese yen and euro. The nominal value of these contracts amounted to USD463 million, RMB955 million, JPY2,148 million and EUR11.65 million, respectively. Pursuant to these forward contracts, the Group and the Company are required to buy/sell foreign currencies, such as USD, Japanese Yen, Euro of contracted nominal value at agreed rates in exchange of RMB at the contract settlement dates. These forwards contracts will be settled on a net basis by comparing the market rates at the settlement dates and the agreed rates. The settlement dates of the aforesaid forwards contracts range from 1 July 2016 to 24 April 2017.

(5) Foreign exchange option contracts

As at 30 June 2016, the Group had certain unsettled foreign exchange option contracts, denominated in U.S. dollars. The nominal value of these contracts amounted to USD198 million; Depending on the contract terms and the market condition, the Group will decide to exercise contractual rights or fulfill contractual obligations as requested on the settlement day. The settlement dates of the aforesaid option contracts range from 1 July 2016 to 24 March 2017.

(6) Currency swap contracts

As at 30 June 2016, the Group had 4 unsettled currency swap contracts denominated in US dollars. The initially nominal value of these contracts amounted to USD8,804,000. These contracts will mature at 1 July 2019, 1 July 2019, 1 August 2019 and 1 September 2019 respectively. As at 30 June 2016, the fair value of the currency swap contracts amounted to RMB14,581,000, which is regarded as derivatives and recognised as financial assets at fair value through profit or loss. Transaction costs on realisation have not been considered when calculating the fair values.

IV. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

5. Other receivables

(1) Other receivables are analysed by categories as follows:

	30 June 2016	31 December 2015
Receivables arising from financing related parties	703,275	489,499
Loans	1,254,080	1,146,375
Tax refund receivable	143,410	103,430
Security deposit	1,253,604	713,699
Receivable from equity transfer	213,869	197,384
Others	870,462	779,808
Sub-total	4,438,700	3,430,195
Less: provision for doubtful debts	(520,046)	(176,545)
Total	3,918,654	3,253,650

(2) Aging analysis of other receivables:

	30 June 2016	31 December 2015
Within 1 year (Inclusive)	3,766,143	2,455,765
1 to 2 years (Inclusive)	125,454	366,884
2 to 3 years (Inclusive)	30,884	72,390
Over 3 years	516,219	535,156
Sub-total	4,438,700	3,430,195
Less: provision for doubtful debts	(520,046)	(176,545)
Total	3,918,654	3,253,650

The aging is calculated from the date that the other receivables are recognised.

As at 30 June 2016, the Group has no overdue other receivables without impairment (31 December 2015: Nil).

IV. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

12. Long-term equity investments (Continued)

(3) Long-term equity investments in associates: (Continued)

The Group's investment ratios in TSC, Wuhan Automobile magazine Co. Ltd., Jiangsu Ruicheng Machinery Co., Ltd, Optton Inc (Shanghai) and Shenzhen Road Network Technology Co., LTD are all below 20%. But since the Group has appointed directors to the above mentioned associates, the Group had significant influence over them. Thus, equity investments on these associates were evaluated subsequently by equity method.

As at 30 June 2016, except for Marine Subsea & Consafe, there is no need for the Group to recognize provision for long-term equity investments in joint ventures and associates based on the provision testing result that compared the estimated recoverable amount and book value of long-term equity investments in joint ventures and associates (31 December 2015: Nil).

13. Investment properties

29. Employee benefits payable (Continued)

(3) Dismissal benefit

	30 June 2016	31 December 2015
Others (i)	2,396	1,307

(i) As at 30 June 2016, the Group provide other compensation amounting to RMB2,396,000 to compensate for the termination of employment relationship.

Please refer to Note IX for cash-settled shared-based payments.

Salaries, bonus and allowances payables represent salaries accrued for current month and bonus accrued for subsidiaries in accordance with the result of annual performance and the performance assessment plan of the Group. According to the requirement of the performance assessment plan, annual accrued bonus would be paid over three years based on the percentage determined by the management; therefore, there was a balance of such accrued bonus at the end of the year.

Enterprise annuity plan is established to safeguard the employee's standard of living after retirement. Every year, companies pay 3% of the total annual wages, and individuals pay 1% of the base. Employees who meet the conditions can choose to draw 0% to 100% of the annuities all at once or in installments based on their length of service. Besides, the fund is managed by specially-assigned person. When a loss is reported or under special conditions, the payment can be suspended. There is no need to make a supplementary payment.

Profit-sharing and senior management bonus is determined on the assessment of certain key performance index. The above bonus is proposed by Chief Executive Officer of the Group and the payment is subject to review and approval by board chairman and vice board chairman of the Group. The balance of Profit-sharing and senior management bonus payable was unpaid balance accrued in prior years.

30. Taxes payable

Others	(2)	45,641	73,635	(1,381)	(23,915)	25,797	119,777
Total		875,498	336,815	(25,741)	(179,377)	(4,697)	1,002,498

- (1) The Group provides after-sales repair warranty to the customers, ranging from two to seven years for containers, one year for trailers, one to seven years for tank equipments, one to two years for airport ground facilities and one year for offshore business after delivery of vessels. The Group will provide repair and maintenance services in accordance with sales contracts during the warranty period in the event of any non-accidental breakdown or quality problems. The balance of "Provisions – Warranties for product quality" represents the Group's estimated obligation for such warranties of products sold out During the period and in the previous fiscal years.
- (2) HI, one of the subsidiaries, provides the guarantee for the banking loans by which the customers buy vehicle products from HI. HI would accrue a provision for the ending balance of the loan guarantee, considering the credit quality.

35. Current portion of non-current liabilities

- (1) The Group's current portion of non-current liabilities are analysed by categories as follows:

	Note	30 J 2016	31 December 2015
Current portion of long-term borrowings	IV.37		
– Unsecured		599,864	60,913
– Mortgaged		56,500	110,997

IV. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

56. Asset impairment losses (Continued)

- (1) On 27 August 2015, CIMC Enric Investment Holdings (Shenzhen) Ltd. ("EIHL"), an wholly-owned subsidiary of the Group's non-wholly owned subsidiary CIMC Enric Holding Ltd. ("CIMC Enric"), entered into an agreement ("Agreement") with SOEG PTE LTD ("SOEG"), Jiangsu Pacific Shipbuilding Group Co., Ltd. ("Jiangsu Pacific") and Evergreen Group Co., Ltd. ("Evergreen") (collectively, the "Vendors"), pursuant to which the Vendors agreed to sell and EIHL agreed to purchase 100% equity interest in SinoPacific Offshore & Engineering Co., Ltd. ("SOE"). Afterwards, CIMC Enric, SOE and Evergreen entered into a financial assistance framework agreement ("Financial Assistance Agreement") which governed the financial assistance provided by CIMC Enric to SOE in the form of loans and guaranteed with a maximum amount of RMB1,500,000,000 which is guaranteed by Evergreen on a back-to-back.

On 1 June 2016, CIMC Enric announced that the Board considered certain conditions precedent in the Agreement cannot be fulfilled and the Vendors had breached certain material terms of the Agreement. The board of directors of CIMC Enric decided to terminate such acquisition and the financial assistance to SOE. As at 30 June 2016, the prepaid consideration amounted to RMB178,634,000. The loans to SOE amounted to RMB482,052,000 and the guarantees for bank loans of RMB1,000,000,000 was provided in favor of SOE. As a result of termination of the acquisition, there are significant uncertainty regarding the collectability of the above mentioned prepaid consideration, loans and guarantees.

Management of CIMC Enric has assessed the collectability of the above mentioned prepaid consideration, loans and guarantees. Taking into account the negotiation between CIMC Enric, SOE and the Vendors and knowledge of the financial position of SOE and the Vendors, CIMC Enric has made substantial provisions of approximately RMB1.215 billion in aggregate for the abovementioned prepaid consideration, loans and guarantees.

- (i) Taking into account the negotiation between CIMC Enric and the Vendors and the knowledge of the financial position of the Vendors, Management of CIMC Enric considered that there existed a significant doubt on the collectability of the prepaid consideration. Therefore, a full provision of RMB178,634,000 was provided for the prepaid consideration during the six months ended 30 June 2016.
- (ii) CIMC Enric has performed an assessment on the impairment risks of the loans to SOE. After assessing SOE's current financial position, its future repayment ability and other alternative available resources, a provision of RMB336,246,000 has been made for the loans to SOE during the six months ended 30 June 2016.
- (iii) CIMC Enric has performed an assessment on the impairment risks of the pledge of bank deposits for SOE's bank loans. After assessing SOE's current financial position, its future repayment ability and other alternative available resources, a provision of RMB700,000,000 has been made for the restricted bank deposits during the six months ended 30 June 2016.

57. Non-operating income

(1) Non-operating income by categories:

V. CHANGES IN THE SCOPE OF CONSOLIDATION

1. Business combinations in of ing enterprises not under common control

In June 2016, CIMC VEHICLES UK LIMITED, a wholly-owned subsidiary of the Group's subsidiary CIMC Vehicle Group entered into agreement with the original shareholders of Retlan Manufacturing Limited to purchase 100% shares of Retlan Manufacturing Limited at a maximum consideration of GBP91,700,000. Retlan Group is located in Great Britain and mainly engaged in semi-trailer manufacturing.

On 3 June 2016, CIMC Enric Tank and Process B.V., a wholly-owned subsidiary of the Group's subsidiary CIMC Enric entered into share transfer agreement with the original shareholders of Briggs Group Limited to purchase 100% shares of Briggs Group Limited at a maximum consideration of GBP23,000,000. Briggs Group Limited is a company incorporated under the laws of England and Wales in 2008. The principal business is engineering, process engineering and sale of equipment and process control systems in the brewing, beverage, distilling food, pharmaceutical, health and beauty and bio-fuel industries, together with project management and consulting services to those markets.

2. Disposal of subsidiaries

There is no loss of control of subsidiaries by disposal of equity interest for the current period.

VI. EQUITY IN OTHER ENTITIES

1. Equity in subsidiaries

All subsidiaries of the Group were established or acquired through combination not under common control. There is no acquisition of subsidiaries through combination under common control.

As at 30 June 2016, the number of companies included in the scope of consolidation added up to 564. Except for the important subsidiaries listed as below, the number of other subsidiaries held by the Group was 321, with paid-in capital amounting to RMB501,863,542. Other subsidiaries mainly included those engaged in manufacturing or service provision, which have relatively small scale of operation and the paid-in capital was below RMB20 million or USD3 million. Other subsidiaries also included those investment holding companies with no operating activities registered in Hong Kong, British Virgin Islands or other overseas countries.

IX. SHARE-BASED PAYMENTS (CONTINUED)

2. Information on equity -settled share-based payment

(1) Information on equity -settled share-based payment of Enric

Enric, a subsidiary of the Company, carried out a share options plan (the "Plan I"), which was approved by the shareholders' meeting on 11 November 2009. According to the Plan, the key management personnel and other employees in Enric were granted share options of Enric at nil consideration to subscribe for shares of Enric. The options are 50% exercisable after one year from the date of grant and are then 100% exercisable after two years from the date of grant. Each option gives the holder the right to subscribe for one ordinary share in Enric. The total number of share options granted was 43,750,000, with the exercise price of HKD4 per share.

Enric carried out another share options plan (the "Plan II"), which was approved by the shareholders' meeting on 28 October 2011. According to Plan II, the board of directors of the Company was authorised to grant share options to the key management personnel and other employees of Enric at nil consideration to subscribe for shares of Enric. The options are 40% exercisable after one year from the date of grant and, 70% exercisable after 2 years from the date of grant, and then 100% exercisable after 3 years from the date of grant. Each option gives the holder the right to subscribe for one ordinary share in Enric. The total number of share options granted was 38,200,000, with exercise price of HKD2.48 per share.

Enric, a subsidiary of the Company, carried out a share options plan (the "Plan III"), which was approved by the shareholders' meeting on 5 June 2014. According to the Plan, the key management personnel and other employees in Enric were granted share options of Enric at nil consideration to subscribe for shares of Enric. The options are 40% exercisable after two years from the date of grant, 70% exercisable after three years from the date of grant and 100% exercisable after four years from the date of grant. Each option gives the holder the right to subscribe for one ordinary share in Enric. The total number of share options granted was 38,420,000, with the exercise price of HKD11.24 per share.

Movement of share options of Enric:

IX. SHARE-BASED PAYMENTS (CONTINUED)

2. Information on equity -settled share-based payment (Continued)

(2) Information on equity -settled share-based payment of the Company

A share options scheme (the "Scheme") was approved in the shareholders' meeting of the Company held on 28 September 2010. According to the Scheme, the board of directors of the Company was authorised to grant share options to the key management personnel and other employees to subscribe for the shares of the Company. The effective period of the Scheme is ten years from the first grant date of share options. The options are exercisable in two periods. The options are 25% exercisable from the first transaction date after 24 months since the grant date to the last transaction date after 48 months since grant date. The remaining 75% are exercisable from the first transaction date after 48 months since grant date to the last transaction date of the Scheme. Each option gives the holder the right to subscribe for one ordinary share in the Company. In addition, the holder must simultaneously satisfy all the conditions as follows:

- (a) The holder should pass the previous year's evaluation.
- (b) The increase of net profit attributable to ordinary shareholders of the Company after deducting nonrecurring profit or loss should not be lower than the 6% and the average return on net assets after deducting non-recurring profit or loss should not be lower than 10% for the previous year of the exercise date.
- (c) During the waiting period, the net profit attributable to ordinary shareholders of the Company and the net profit attributable to ordinary shareholders of the Company after deducting non-recurring profit or loss should not be lower than the average figures of the three fiscal years before the grant day or negative.

The total number of share options granted was 60,000,000, 54,000,000 among which were for the initial grant with exercise price of RMB12.39 per share while the remaining 6,000,000 options were for reservation.

The Company distributed a cash dividend of RMB0.35 per share, RMB0.46 per share, RMB0.23 per share, RMB0.27, RMB0.31 and RMB0.22 per share on 31 May 2011, 21 June 2012, 28 June 2013, 27 June 2014, 29 July 2015 and 31 May 2016 respectively to ordinary shareholders. In accordance with the Scheme, upon the implementation of the annual dividend distribution plan for 2010, 2011, 2012, 2013, 2014 and 2015, the Board of Directors adjusted the exercise price of the aforementioned 54,000,000 share options granted on 28 September 2010. After the adjustment, the exercise price is RMB10.55 per share.

IX. SHARE-BASED PAYMENTS (CONTINUED)

2. Information on equity-settled share-based payment (Continued)

(4) Basis of the best estimate of the number of equity instruments expected to vest is as follows:

At each balance sheet date during the vesting period, the Company makes the best estimation according to the latest information of the number of employees who are granted to vest and revises the number of equity instruments expected to vest. On vesting date, the estimate shall be equal to the number of equity instruments that ultimately vested.

There was no significant difference of estimation between current period and last year.

As at 30 June 2016, Accumulated amount recognised in capital reserve for equity-settled share-based payments	413,240
Total expenses recognised for equity-settled share-based payments for current period Including:	
–attributed to the Company	
– attributed to Enric	19,889
	19,889

3. Information on cash-settled share-based payment

According to the approved Share Appreciation Rights Scheme (draft) Revised ("Scheme") during the board meeting of Raffles held on 27 September 2011, a subsidiary of the Group, Raffles adopted Share Appreciation Rights ("SARs") which is to grant the relevant incentive recipients the right to receive incentive amount in cash from Raffles upon the satisfaction of relevant financial performance of Raffles. Incentive amount is the excess of fair market price of A share of the Company on a particular date over the exercise price.

The scope of incentive recipients of this scheme: the appointed senior management who is non-Chinese nationality of Raffles and its subsidiaries or associates as well as person(s) who made special contribution to Raffles in the discretion of the board of directors. There are 4 incentive recipients in the scope with total 760,000 SARs granted.

The Scheme is conditional, which sets stipulations for appraisal result of incentive recipients' performance, misconduct activity and financial performance standards of the Group to fulfil.

Notes to the Financial Statements

IX. SHARE-BASED PAYMENTS (CONTINUED)

3. Information on cash-settled share-based payment (Continued)

The SARs are exercisable in 2 instalment periods after 2 years from the right-grant date upon the satisfaction of exercisable conditions:

- (1) The SARs are up to 25% exercisable from the first transaction date after 24 months since grant date to the last transaction date after 48 months since grant date.
- (2) The remaining SARs up to 75% are exercisable from the first transaction date after 48 months since grant date to the last transaction date of the Scheme.

Raffles will write off the unexercised SARs after each exercise period expires if the SARs being requested for exercise by the grantee satisfying exercise conditions is less than the number of effective SARs during each period.

Raffles will write off unexercised SARs, which was granted but invalid due to un-satisfaction of the exercise condition during the exercise period, after each period expires.

As at 30 June 2016, the amount of accumulated liabilities to cash-settled share-based payment was nil, and the expenses recognised for cash-settle share-based payment was nil for current period.

There is no movement of cash-settled share options.

Notes to the Financial Statements

X. CONTINGENCIES

1. Contingent liabilities

CIMC Raffles, a subsidiary of the Group, entered into drilling platform construction contracts with relevant purchasers, which involve terms of compensation for delivery postponement. For certain contracts, the management expected the risk of delivery postponement which will incur the compensation is high, therefore the management decided to accrue a provision of estimated liabilities amounted to US\$8,225,000 (equivalent to RMB54,542,000) in accordance with both the daily compensation amount written in the contracts and the expected postponed days with highest chance.

Yangzhou CIMC Tong Hua Special Vehicles Co., Ltd. (YZTH) (a subsidiary of the Group) provided guarantee to the mortgage loans by which some of its clients bought its mixer trucks, but some of the loans repayments have been overdue severely, the management expected there is possibility for YZTH to repay the loans for the clients, therefore they decided to accrue a provision amounting to RMB26,530,000.

2. Guarantees provided for external parties

CIMC Vehicle Group, a subsidiary of the Group, developed business of buyer's credit of vehicles and signed contracts with Bank of Communications, China Merchants Bank and China Everbright Bank, pursuant to which relevant banks provided guarantees in respect of banking facilities granted to the distributors and customers of CIMC Vehicle Group and its holding subsidiaries arising from purchase of vehicle products. As at 30 June 2016, as approved by the Board of the Company, the aggregate amount of credit facilities in respect of which CIMC Vehicle Group and its holding subsidiaries provided guarantees to the distributors and customers was approximately RMB996,400,000 (31 December 2015:RMB809,315,000).

CIMC Raffles, a subsidiary of the Group, provided guarantees to its customers by way of vessel leasing. As at 30

XII. EVENTS AFTER THE BALANCE SHEET DATE

1. On 31 May 2016, the Company considered and approved the Resolution on the Registration and Issuance of Medium Term Notes (including Perpetual Medium Term Notes) and Super & Short-term Commercial Papers in the PRC at the annual general meeting of 2015 which, among others, approved the issuance by the Company of RMB medium term note with a size of not more than RMB6.0 billion. On 11 August 2016, the Company issued the first tranche of the Medium Term Note for 2016 with a size of RMB3.5 billion, a coupon rate of 3.07% and a term of three years. On 22 August 2016, the Company issued 2016 Tranche II Medium Term Notes with a size of RMB2.5 billion, fixed interest rate of 3.15% per annum and a term of three years. For relevant information, please refer to the announcements (Notice No.: [CIMC] 2016-033 and [CIMC] 2016-045) disclosed in China Securities Journal, Securities Times, Shanghai Securities News, Cninfo website (www.cninfo.com.cn) and the Company's website (www.cimc.com) and the announcements published on the website of the Hong Kong Stock Exchange (www.hkexnews.hk) by the Company on 1 June 2016, 13 August 2016 and 23 August 2016, respectively.
2. On 18 August 2016, the Company signed a strategic cooperation framework agreement with Global Logistic Properties Investment Management (China) Co., Ltd.. Under the Agreement, both parties intend to jointly develop their logistic properties business and forge a comprehensive strategic partnership based on their relevant strategic resources, so as to achieve benefits from complementary advantages and powerful alliances. For relevant information, please refer to the announcement (Notice No.: [CIMC] 2016-047) disclosed in China Securities Journal, Shanghai Securities News, Securities Times, Cninfo website (www.cninfo.com.cn) and the Company's website (www.cimc.com) by the company on 19 August 2016, and the relevant announcement published on the website of the Hong Kong Stock Exchange (www.hkexnews.hk), respectively.

XIII. SEGMENT REPORTING

In accordance with the Group's internal organisation structure, management requirement and internal reporting process, nine reportable segments are identified by the Group including: Containers, Road transportation vehicles, Energy and chemistry & food equipment, Offshore business, Airport facilities, Logistic services, Finance, Property development and Heavy trucks. Each reportable segment is an independent business segment providing different products and services. Independent management is applied to individual business segment as different technical and market strategy are adopted. The Group reviews the financial information of individual segment regularly to determine resources allocation and performance assessment.

1. Segment profits, losses, assets and liabilities

In order to assess the segment performance and resources allocation, the Group's management review segment revenue, expenses, assets and liabilities of each segment regularly. The preparation basis of such information is detailed as follows:

Segment assets include tangible assets, intangible assets, other long-term assets and accounts receivable, etc, but exclude deferred tax assets and other un-allocated headquarter assets. Segment liabilities include payables, bank loans, provision, special payables and other liabilities, while deferred tax liabilities are exclude.

Segment profit represents revenue (including external revenue and inter-segment revenue), offsetting segment expenses, depreciation and amortisation, impairment losses, interest expenses and income attributable to individual segment. Transactions conducted among segments are under normal non-related party transaction commercial terms.

XIII. SEGMENT REPORTING (CONTINUED)

2. Geographic information

The following table sets out information about the geographical information of the Group's revenue from external customers and the Group's non-current assets (excluding financial assets and deferred tax assets, same for the below). The geographical locations of customers are based on the location at which the services were provided or the goods were delivered. The geographical locations of the specified non-current assets are based on the physical location of the assets (for fixed assets), or the location of the business to which they are allocated (for intangible assets and goodwill), or the location of operations of the associates and joint ventures.

Geographic information (according to the receiving party division)

Item	Revenue		Total non-current assets	
	For the Period from 1 January to 30 June 2016	For the Period from 1 January to 30 June 2015	30 June 2016	31 December 2015
P.R.China	8,454,654	12,516,030	50,929,659	47,110,129
Asia (exclusive of China)	1,838,387	6,105,303	466,671	270,572

XIV. FINANCIAL RISK AND FAIR VALUES OF FINANCIAL INSTRUMENTS

The Group has exposure to the following risks from its use of financial instruments in the normal course of the Group's operations, which mainly include:

- Credit risk
- Liquidity risk
- Interest rate risk
- Foreign exchange risk

This note presents information about the Group's exposure to each of the above risks and their sources, the Group's objectives, policies and processes for measuring and managing risks and etc.

The Group aims to seek the appropriate balance between the risks and benefits from its use of financial instruments and to mitigate the adverse effects that the risks of financial instruments have on the Group's financial performance. Based on such objectives, the Group's risk management policies are established to identify and analyses the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The internal audit department of the Group undertakes both regular and ad-hoc reviews of risk management controls and procedures.

Notes to the Financial Statements

For the period ended 30 June 2016
(All amounts in RMB'000 unless otherwise stated)

XIV. FINANCIAL RISK AND FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

1. Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Group's credit risk is primarily attributable to cash at bank, receivables, debt investments and derivative financial instruments entered into for hedging purposes and etc. Exposure to these credit risks are monitored by management on an ongoing basis.

The cash at bank of the Group is mainly held with well-known financial institutions. Management does not foresee any significant credit risks from these deposits and does not expect that these financial institutions may default and cause losses to the Group.

In respect of receivables, the risk management committee of the Group has established a credit policy under which individual credit evaluations are performed on all customers to determine the credit limit and terms applicable to the customers. These evaluations focus on the external ratings of the customers and their bank credit records where available and previous payment records (if available). Receivables are due within from 30 to 90 days from the date of billing. Normally, the Group does not obtain collateral from customers, but earnest or prepayment money is requested sometimes due to the customer's situation.

The management team of the Group had made the plan for financial leasing receivable risk management, based on the research on its own industries, the credit rating of counterparties and the knowledge of the counterparties' businesses and financial standings. If the default of contract occurs, the management team of the Group may ask for returning, withdrawing or selling leased property, depending on the applicableness in individual cases. If the delay of repayment occurs, the management team keeps the right to collect the default interest based on the amount of overdue repayment and default interest rate, until the overdue payment will have been paid. In addition, the management team may ask for the deposit which can be paid for the money owed by the leasee, depending on individual cases. When the Group assesses the credit risk, its strategy is to manage, restrict and control the over-concentration of the credit risk, especially, regularly assessing leasee's ability to make the repayment.

Most of the Group's and the Company's customers have been transacting with the Group or the Company for a long time, and losses have occurred infrequently. In monitoring customer credit risk, customers are grouped according to some factors, such as ageing and maturity date. This Group has made the provision for the significant overdue receivables at 30 June 2016.

Based on the indicators such as assets conditions and profit forecast of the associates and joint ventures, the Group provide funds to them and continuously monitor the project progress and business condition, to ensure the recoverability of fund.

In addition, the receivables of the Group that are neither overdue nor impaired mainly due from a wide range of customers for whom there was no recent history of default.

The Group's exposure to credit risk is influenced mainly by the individual characteristics and industries of each customer rather than country or area in which the customers operate. And therefore significant concentrations of credit risk arise primarily when the Group has significant exposure to individual customers. At the balance sheet date, the Group and the Company had a certain concentration of credit risk, as 11.29% (2015: 12.40%) of the total accounts receivable and other receivables were due from the five largest customers of the Group.

Investments are normally made only to liquid securities quoted on a recognised stock exchange (except for investments for long-term strategic purposes). Besides, the credit rating of counterparty should be the same or above the Group. For transactions involving derivative financial instruments, counterparties should have sound credit ratings and with whom the Group has a signed netting ISDA agreement (International Swap Derivative Association). Given their high credit ratings, management does not expect any investment counterparty to fail to meet its obligations.

The maximum exposure to credit risk is represented by the carrying amount of each financial asset, including derivative financial instruments, as in the balance sheet. Except for the financial guarantees given by the Group as set out in Note X, the Group and the Company do not provide any other guarantees which would expose the Group or the Company to credit risk. The maximum exposure to credit risk in respect of these financial guarantees at the balance sheet date is disclosed in Note X.

Notes to the Financial Statements

For the period ended 30 June 2016

XIV. FINANCIAL RISK AND FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

2. Liquidity risk

Liquidity risk is the risk that an enterprise may encounter deficiency of funds in meeting obligations associated with financial liabilities. The Company is responsible for the cash management, including short term investment of cash surpluses and the raising of loans to cover expected cash demands, for individual subsidiaries subject to approval by the Company's board when the borrowings exceed certain predetermined levels of authority. The Group's policy is to regularly monitor its short-term and long-term liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash and readily realisable marketable securities.

The following tables show the remaining contractual maturities at the balance sheet date of the Group's financial assets and financial liabilities, which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or if floating, based on prevailing interest rates at 30 June) and the earliest date the Group can be required to pay:

	30 June 2016

	47,852,806	-	42,242,865	-

Notes to the Financial Statements

For the period ended 30 June 2016

(All amounts in RMB'000 unless otherwise stated)

English Translation for Reference Only

XIV. FINANCIAL RISK AND FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

3. Interest rate risk

Fixed and floating interest-bearing financial instruments exposed the Group to interest rate risk of fair value and cash flow, respectively. The interest rate policy is to ensure the exposure of interest rate risk of borrowing is within a reasonable scope. The Group had entered into interest rate swap contracts, which were made based on the currencies of the borrowings. Hence the Group set up appropriate fixed and floating interest rate risk portfolio, to meet the policy.

(1) As at 30 June 2016, the Group held the following interest-bearing financial instruments:

	30 June 2016		31 December 2015	
	Interest rate (%)	Amount	Interest rate (%)	Amount
Fixed rates interest-bearing financial instruments				
Financial assets				
– Long-term receivables	2.58%-17.53%	23,680,288	2.58%-17.53%	12,734,564

(All amounts in RMB'000 unless otherwise stated)
English Translation for Reference Only

XIV. FINANCIAL RISK AND FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

3. Interest rate risk (Continued)

(2) Sensitivity analysis

As at 30 June 2016, it is estimated that a general increase/decrease of 25 basis points (31 December 2015: 25 basis points) in interest rates, with all other variables held constant, would increase/decrease the Group's net profit by RMB29,700,000 and equity by RMB29,700,000 (2015: RMB48,654,000 and RMB48,654,000, respectively).

The sensitivity analysis above indicates the instantaneous change in the net profit and equity that would arise assuming that the change in interest rate had occurred at the balance sheet date and had been applied to re-measure those financial instruments held by the Group which expose the Group to fair value interest rate risk at the balance sheet date. In respect of the exposure to cash flow interest rate risk arising from floating rate non-derivative instruments held by the Group at the balance sheet date, the impact on the net profit and equity is estimated as an annualised impact on interest expense or income of such a change in interest rates. The analysis was performed on the same basis for the previous year.

4. Foreign exchange risk

The major currency received by the Group is USD and the major currency paid out is RMB. In order to avoid the risks resulting from the fluctuation of the exchange rate of RMB, in respect of accounts receivable and payables denominated in foreign currencies, the Group ensures that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

- (1) Besides the exposure to currency risk arising from financial assets at fair value through profit or loss and financial liabilities at fair value through profit or loss disclosed in Note IV.2 and IV.25, the Group's exposure as at 30 June to currency risk arising from recognised assets or liabilities denominated in foreign currencies is follows. For presentation purposes, the amounts of the exposure are shown in RMB, translated using the spot rate at the balance sheet date. Differences resulting from the translation of the financial statements denominated in foreign currency are excluded.

	30 June 2016				31 December 2015			
	USD	EUR	HKD	JPY	USD	EUR	HKD	JPY
Cash at bank and on hand	87,062	42,233	30,939	2,005	316,077	506,361	19,899	18,491
Receivables	2,883,989	111,874	23,467	9,514	4,045,832	1,335,104	47,544	24,715
Short-term borrowings	(6,859,646)	(97,072)	-	(4,780)	(12,049,493)	(278,494)	-	(5,388)
Long-term borrowings	(15,396,045)	-	-	-	(21,092,096)	-	(83,778)	-
Payables	(438,012)	(30,469)	(617)	-	(1,035,809)	(1,167,766)	(391,933)	(1,825)
Current portion of non-current liabilities	-	(5,163)	-	-	(503,684)	-	-	-
Gross balance sheet exposure	(19,722,652)	21,403	53,789	6,739	(30,319,173)	395,205	(408,268)	35,993

Notes to the Financial Statements

For the period ended 30 June 2016

(All amounts in RMB'000 unless otherwise stated)

XIV. FINANCIAL RISK AND FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

4. Foreign exchange risk (Continued)

(2) The following are the exchange rates for RMB against foreign currencies applied by the Group and the Company:

	Approximate Exchange Rates Period from 1 January to 30 June 2016	For the Period from 1 January to 30 June 2015	Approximate Exchange Rates 30 June 2016	30 June 2015
USD	6.5359	6.1275	6.6312	6.1136
EUR	7.2993	6.8166	7.3750	6.8699
HKD	0.8418	0.7903	0.8547	0.7886
JPY	0.0590	0.0509	0.0645	0.0501

(3) Sensitivity analysis

Assuming all other risk variables remained constant, 3.70%, 3.10%, 3.40% and 3.20% weakening of the RMB against the USD, EUR, HK dollar and Japanese Yen respectively at 30 June 2016 (-1.00%, 13.00%, 1.00% and 6.00% strengthening of the RMB against the USD, EUR, HK dollar, and Japanese Yen respectively at 31 December 2015) would have increased (decreased) equity and net profit by the amount shown below; whose effect is in RMB and translated using the spot rate at the balance sheet date:

	Equity	Net Profit
30 June 2016		
USD	(547,304)	(547,304)
EUR	498	498
HKD	1,372	1,372
JPY	162	162
Total	(545,272)	(545,272)
31 December 2015		
USD	(841,357)	(841,357)
EUR	9,189	9,189
HKD	(10,411)	(10,411)
JPY	864	864
Total	(841,715)	(841,715)

3.70%, 3.10%, 3.40% and 3.20% strengthening of the RMB against USD, EUR, HK dollar and Japanese Yen respectively at 30 June 2016 (-1.00%, 13.00%, 1.00% and 6.00% weakening of the RMB against the USD, EUR, HK dollar, and Japanese Yen respectively at 31 December 2015) would have had the equal but opposite effect on the amounts shown above, on the basis that all other variables remain constant.

Notes to the Financial Statements

For the period ended 30 June 2016
(All amounts in RMB'000 unless otherwise stated)
English Translation for Reference Only

XIV. FINANCIAL RISK AND FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

4. Foreign exchange risk (Continued)

(3) Sensitivity analysis (Continued)

The sensitivity analysis above assumes that the change in foreign exchange rates had been applied to re-measure those financial instruments held by the Group which expose the Group to foreign currency risk at the balance sheet date, the analysis excludes differences that would result from the translation of the financial statements denominated in foreign currency. The analysis is performed on the same basis for the previous year.

The above sensitive analysis does not include exposure to currency risk arising from foreign future contracts, Japanese Yen exchange option and swap contract for interest rate disclosed in Note IV.2 and IV.25 about financial assets at fair value through profit or loss and financial liabilities at fair value through profit or loss, but the change in exchange rate may have effect on shareholders' equity and net profit.

5. Other price risks

Other price risks are stock price risk. As at 30 June 2016, the Group held 40,414,000 tradable shares of Qingdao Port International Co., Ltd.

As at 30 June 2016, it is estimated that a general increase/decrease of the comprehensive index of H-shares 5.00% (31 December 2015: 5.00%), with all other variables held constant, would increase/decrease the Group's shareholders' equity by RMB5,970,000 (31 December 2015: RMB5,619,000).

The sensitivity analysis above arise assuming that the change in the comprehensive index of H-shares occurred at the balance sheet date is reasonable and had been applied to re-measure those investments in securities held by the Group. The sensitivity analysis is also based on another assumption, namely, the fair value of the investments in securities held by the Group is relevant to composite index of stock market, and available-for-sales securities investment has same risk factor as trading securities investment, and all other variables held constant. 20.00% change in the comprehensive index of H-shares is a reasonable expectation of the Group for the period from the balance date to the next balance sheet date.

XIV. FINANCIAL RISK AND FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

6. Estimates of fair value of financial instruments

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices);

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

(1) Assets continuously measured at fair value

The following table presents the Group's assets and liabilities that are measured at fair value in the above three levels as at 30 June 2016:

Assets	Note	Level 1	Level 2	Level 3	Total
Financial assets at fair value through profit or loss					
Investments in equity instrument held for trading	IV.2	124,392	-	-	124,392
Derivative financial assets	IV.2	-	35,187	-	35,187
Sub-total		124,392	35,187	-	159,579
Available-for-sale financial assets	IV.10	2,678	52,493	-	55,171
Total		127,070	87,680	-	214,750

Liabilities	Note	Level 1	Level 2	Level 3	Total
Financial liabilities at fair value through profit or loss

XIV. FINANCIAL RISK AND FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

6. Estimates of fair value of financial instruments (Continued)

(1) Assets continuously measured at fair value (Continued)

The following table presents the Group's assets and liabilities that are measured at fair value in the above three levels as at 31 December 2015:

Assets	Note	Level 1	Level 2	Level 3	Total
Financial assets at fair value through profit or loss					
Investments in equity instrument held for trading	IV.2	122,171	–	–	122,171
Derivative financial assets	IV.2	–	30,878	–	30,878
Sub-total		122,171	30,878	–	153,049
Available-for-sale financial assets	IV.10	1,342	30,000	–	31,342
Total		123,513	60,878	–	184,391

Liabilities	Note	Level 1	Level 2	Level 3	Total
Financial liabilities at fair value through profit or loss					
Derivative financial liabilities	IV.25	–	(258,146)	–	(258,146)
Hedging Instrument	IV.25	–	(7,826)	–	(7,826)
Financial guarantee contracts	IV.25	–	–	(40,268)	(40,268)
Total		–	(265,972)	(40,268)	(306,240)

The Group make the date when matters occurred which result in significant transfers between instruments in the three levels as the point of transfer. During the period ended 30 June 2016, there were no significant transfers between instruments in Level 1 and Level 2 neither nor Level 2 and Level 3.

For traded in active markets financial instruments, the group measures its fair value at an active market price; for not traded in active markets financial instruments, the group uses valuation techniques to determine the fair value. Valuation model mainly used are the discounted cash flow model and market comparable company model etc. Input values of the valuation techniques include the risk free interest rate, benchmark interest rate, exchange rate, credit spreads, liquidity premium, EBITDA multiplier, the lack of liquidity discount etc.

XV. CAPITAL MANAGEMENT

The Group's objectives of managing capital are to safeguard the group's ability of sustainable development in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Total capital of the group is shareholders' equity shown in the consolidated balance sheet. The group is not subject to external mandatory capital requirements, and use debt to asset ratio to monitor capital.

The Group monitors capital on the basis of Debt-Asset ratio. This ratio is calculated as total liabilities divided by total assets.

As In the period the Group manages capital status by controlling the Debt-Asset ratio not to exceed 70% (2015: not to exceed 70%). The Debt-Asset ratio as at 30 June 2016 and 31 December 2015 were as follows:

	30 J 2016	31 December 2015
Total Liabilities	80,446,229	71,268,295
Total Assets	114,799,917	106,763,171
Debt-Asset ratio	70%	67%

XVI. NOTES TO THE HOLDING COMPANY'S FINANCIAL STATEMENTS

1. Cash at bank and on hand

	30 J 2016	31 December 2015
Bank deposits	1,262,262	1,585,004
Other cash balances	12,513	12,442
	1,274,775	1,597,446
Including: cash abroad	499	489

As at 30 June 2016, restricted cash at bank and on hand of the Company amounted to RMB2,635,000 (31 December 2015: RMB2,581,000).

As on 30 June 2016, the fixed deposit of the Company in the Financial Company, a subsidiary of the Group, was RMB942,000,000 (31 December 2015: RMB942,000,000).

XVI. NOTES TO THE HOLDING COMPANY'S FINANCIAL STATEMENTS (CONTINUED)

3. Other receivables (Continued)

(2) Other receivables are analysed by ageing as follows:

	30 June 2016	31 December 2015
Within 1 year (Inclusive)	10,517,256	9,778,433
1 to 2 years (Inclusive)	740,649	754,128
2 to 3 years (Inclusive)	1,559,094	1,779,478
Over 3 years	55,492	55,643
Sub-total	12,872,491	12,367,682
Less: provision for bad debts	(4,580)	(4,580)
Total	12,867,911	12,363,102

The ageing is calculated starting from the date the other receivable is recognized.

As at 30 June 2016 and 31 December 2015, the Company did not have overdue other receivables that were not impaired.

(3) Other receivables are analysed by categories as follows:

Note	30 June 2016				31 December 2015			
	Ending balance		Provision for bad debts		Ending balance		Provision for bad debts	
	Amount	% of total balance	Amount	% of total balance	Amount	% of total balance	Amount	% of total balance
Other receivables with amounts that are individually significant (4)	12,826,321	99.64%	-	-	12,316,835	99.59%	-	-
Other receivables with amounts that are not individually significant (5)	46,170	0.36%	4,580	9.92%	50,847	0.41%	4,580	9.01%
Total	12,872,491	100.00%	4,580	0.04%	12,367,682	100.00%	4,580	0.04%

There were no collaterals that the Company held for other receivables that were made impairment aforesaid.

English Translation for Reference Only

XVI. NOTES TO THE HOLDING COMPANY'S FINANCIAL STATEMENTS (CONTINUED)

3. Other receivables (Continued)

(4) Other receivables with amounts that are individually significant and that the related provision for doubtful debts is provided on the individual basis

As at 30 June 2016 and 31 December 2015, the Company has no other receivables with amounts that are individually significant and that the related provision for doubtful debts is provided on the individual basis.

(5) Other receivables with amounts that are not individually significant but that the related provision for doubtful debts is provided on the individual basis.

As at 30 June 2016 and 31 December 2015, the Company has no other receivables with amounts that are not individually significant but that the related provision for bad debts is provided on the individual basis.

(6) Other receivables that the related provision for bad debts is provided on grouping basis using the ageing analysis method are analysed as follows:

	30 June 2016			31 December 2015		
	Ending balance	Provision for bad debts	Ratio	Ending balance	Provision for bad debts	
	Amount	Amount		Amount	Amount	Ratio
Within 1 year	37,477	-	-	31,452	-	-
1 to 2 years	3,588	-	-	13,983	-	-
2 to 3 years	-	-	-	157	-	-
3 to 4 years	525	-	-	675	-	-
4 to 5 years	-	-	-	-	-	-
Over 5 years	4,580	4,580	100%	4,580	4,580	100%
Total	46,170	4,580	9.92%	50,847	4,580	9.01%

(7) The recovery of provision in current period

There were no other receivables that the related provision for doubtful debts had been provided in full amount or in large proportion in previous years but are collected or reversed in full amount or in large proportion in current period (2015 1-6: Nil).

(8) Other receivables that are written off in current period

There were no material other receivables that are written off in current period (2015 1-6: Nil).

Notes to the Financial Statements

XVI. NOTES TO THE HOLDING COMPANY'S FINANCIAL STATEMENTS (CONTINUED)

4. Available-for-sale financial assets (Continued)

(1) Related information analysis of available-for-sale financial assets is as follows:

Available-for-sale financial assets measured at cost:

	31 December 2015	Increase in this period	Reduction in this period	30 J 2016	Share holding (%)	Cash dividend declared
Available-for-sale equity instruments						
– cost						
– Bocm Schroder Stolt Fund Management	8,125	–	–	8,125	5.00%	5,000
– China Railway United Logistics	380,780	–	–	380,780	10.00%	3,000
– Guangdong Samsung	1,365	–	–	1,365	0.09%	–
– Beihai Yinjian	1,700	–	–	1,700	1.01%	–
Sub-total	391,970	–	–	391,970		8,000
Less: provision for impairment	(3,065)	–	–	(3,065)		–
Total	388,905	–	–	388,905		8,000

(2) Available-for-sale financial assets measured at cost held by the group are mainly unlisted equity investments with no active market price and their reasonable fair value estimates has large variation range; the probability determining the fair value estimate can not be reasonably determined so their fair value cannot be reliably measured. The group has no disposal of the investment plan.

5. Long-term equity investments

(1) Long-term equity investments are analysed by categories as follows:

	30 J 2016	31 December 2015
Subsidiaries ⁽²⁾	8,522,688	8,509,530
Sub-total	8,522,688	8,509,530
Less: provision for impairment	–	–
Total	8,522,688	8,509,530

There is no restriction on sale of the long-term equity investments held by the Company.
